Carter ends campaign in GC

By BILL WINTER
of the Press-Record

Highlighted by the Carter-Reagan presidential race, the long struggle for the hearts and minds of voters locally and in Illinois and America is coming to a close tonight following this afternoon's address in Granite City by President Carter.

Record turnouts are predicted in the Quad-City area, state and nation for tomorrow's voting. Local balloting will take place from 6 a.m. to 7 p.m.

Polling places here are listed on Page 8 of today's Press-Record. Reminders of this newspaper's endorsements appear on Page 20, and Forum letters on the election are on Pages 20 and 21.

There is lively competition for 18 positions on Quad-City ballots. Also to be decided are statewide constitutional amendments on the Illinois House of Representatives and scavenger tax sales, and three Madison County governmental tax cut proposals.

County contests include a spirited battle for state's attorney (county prosecutor) between Democratic incumbent Nicholas Byron and Republican challenger Donald Weber.

Intense interest also has developed in the appellate judge election between Republican Thomas A. Welch and Democrat Robert Mays, the latter opposed by the Illinois State Bar Association.

Judicial retention campaigns are being waged by Circuit Judges Victor

Mosele and John DeLaurenti against groups of lawyers seeking their defeat. There is no state senator election, but Belleville residents Alan J. Dixon, Democrat, and David C. O'Neal, Republican, are battling to succeed retiring U.S. Senator Adlai Stevenson.

Virtually assured of victories Tuesday are State Representatives Sam Wolf (D) of Granite City, Everett Steele (R) and Jim McPike (D) and County Board candidates Herbert Milton, Roderick Bauder, Frank Dulko and Richard Peck (the four Quad-Cityans are Democrats).

State representatives in the 56th Legislative District and in most of the state are urging "No" votes on a plan to change the 99 three-member House districts to 118 one-member districts, ending cumulative voting. Proponents say there would be a greater accountability and economy.

"Yes" votes are being suggested by all who have spoken out on the tax sale amendment, which backers say would bolster the financial base for governmental services, reduce tax avoidance and fight slum housing conditions.

No president seeking re-election has been defeated since Herbert Hoover of the Depression era. But pollsters say the Carter-Reagan clash is close enough that President Jimmy Carter could lose out, on the basis of concern over inflation, unemployment and the nation's role in the world.

The incumbent has sought to raise fear over Ronald Reagan's potential handling of war and peace issues and nuclear weapons. The former California governor says the past four years have been a "disaster" for citizens, indicating that Mr. Carter, a former Georgia governor, is not competent to lead the nation.

The Republican cites severe inflation during the Carter administration and says he would achieve prosperity through tax cuts; the Democrat ridicules the proposal and says voters should support him on the basis of his White House experience.

Here and elsewhere, the GOP has been seeking the backing of blue collar as well as white collar voters, noting they have been hurt by the economic recession and the rising cost of living. The AFL-CIO meekness in stressing its belief that working people should continue to vote Democratic.

Similar economic and peace issues have arisen in the U.S. Senate race, but Secretary of State Dixon's greater experience and name recognition have helped him lead in all pre-election polls over the lieutenant governor.

Congressman Melvin Price is favored to win a 19th consecutive two-year term in the 23rd Illinois District over the Republican nominee, Ronald DeVinroy.

Principal candidates for three University of Illinois trustee positions are the Democratic incumbents, Robert Lenz, Nina Shepherd and Arthur Valesquez, and Republicans Lawrence Gougler, Dean Madden and Mrs. Galey Day. The Democrats point to their board experience, while the Republicans say the present 8-1 Democratic edge is excessive.

Contests for Madison County elective offices in addition to the Byron-Weber state's attorney race pit together

Circuit Court Clerk Willard Portell (D) and William Hardin (R); Recorder of Deeds Ronald Lucas (D) and Joseph Young (R); Mrs. Dallas M. Burke (D), coroner, and Dr. Felicia Koch (R), a Granite City physician and surgeon, and County Auditor Arthur Pete Fields (D), opposed by Larry West (R).

Appellate Judge Moses Harrison (D) is unopposed for one of the two appellate positions to be decided tomorrow, and Circuit Judge A. Andreas Matosian (D) is unopposed for circuit judge.

132,000 eligible to vote tomorrow

Madison County now has a record 132,000 registered voters, including 11,336 who signed up between Sept. 1 and Oct. 7.

County Clerk Evelyn Bowles predicts that 80 percent of this total will go to the polls tomorrow. A big statewide turnout also has been forecast in Illinois.

Joseph Frano of Fairmont City, St. Clair County, who wants to become a 56th District legislator, also wants to see the district split into two, with two rather than three persons elected to the House. He is the only state representative candidate in this district who favors the House cutback that is on tomorrow's blue ballot.

Declining to provide a photograph of himself, Frano, 65, a retired Conrail railroad car inspector, says, "My face isn't going to win the election." He is on the ballot because he received three write-in Republican votes in the March primary.

"It's news to me," Madison County Republican Chairman Edward Ragdale said of Frano's candidacy. "He hasn't made any effort to be active politically. I don't see how he could be serious." Frano's response: "If those fellows want to help me, that's okay; if they don't, I'm satisfied."

Joe E. Lucio, an Edwardsville resident who knows what it's like to serve in the Illinois House, wants the present structure continued, though "No" votes on the legislative amendment tomorrow.

"The House resembles a zoo," his

opponent, Kevin Conner, said at a debate last week at SIUE. But Lucio described the House as a busy place for the 157 members, and warned that the workload could be too much for 118.

"I can't see there cutting the size of the House would reduce the number of bills introduced (5,345 last year)," Lucio said. "Fewer legislators would have to serve on more committees and deal with more bills."

At a candidate forum conducted last week in Collinsville by the League of Women Voters, Madison County State's Attorney Nicholas Byron was not present, leaving the floor wide open for campaign comments by his ballot opponent, Donald Weber.

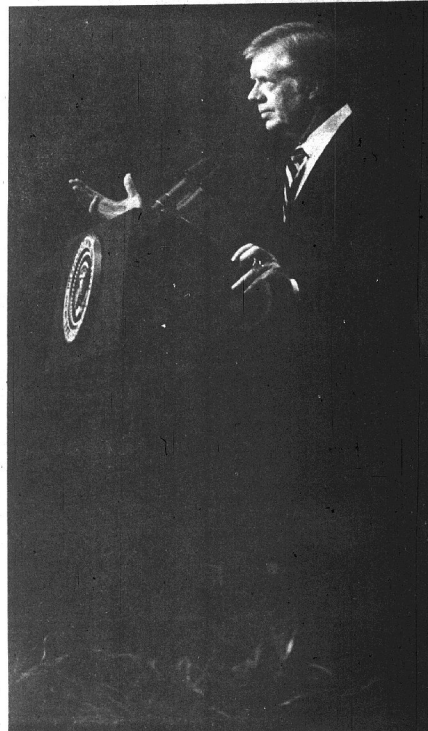

Weber contended that he could improve the conduct of the office and fold the gathering of 50. "This makes the 14th time he has failed to show up to debate me."

How did Robert Mays of East St. Louis upset four rival candidates with greater experience than him in the Democratic appellate judge primary election? He worked harder, for one thing, spending vast amounts of time campaigning and visiting every one of the 37 counties.

A "hidden weapon" for Mays may have been not only how much he campaigned, but what he said when he talked to voters.

Mays admitted last week that he has promised to provide East St. Louisans

Target port for future development

By GARY SCHNEIDER
of the Press-Record

There was good news and bad news late last week for future port development in the Quad-City area.

The good news was that a major St. Louis bank has realized that the Tri-City Regional Port is one of only five major sites worthy of massive funding for future industrial growth.

The bad news, announced here Thursday afternoon, is that local officials in Chicago Tuesday were told that the government is likely to "change its mind" about selling the southern 130 acres of the Granite City Army Installation to Granite City for future industrial and port growth. The area being withdrawn includes four open-ended warehouse buildings and other structures.

Carl Ranft, general manager of the Tri-City Regional Port District, and Granite City Mayor Paul Schuler were among those who visited officials of the General Services Administration in Chicago Tuesday and were informed that the GSA's original plan to sell about 230 acres of surplus Army property to Granite City is about to be withdrawn and instead, only about 100 acres, including the enclosed

Suspect held in fatal shooting

John Michailidis, 17, of 3019 Marshall Ave., died at Firmin Desloge Hospital, St. Louis, at 5 a.m. Saturday from a fatal gunshot wound.

The youth was shot, one time, in the abdomen at approximately 9:27 p.m. Friday, with a .38-caliber pistol. The shooting took place in the parking lot at the rear of Sedlack Funeral Home, 615 Madison Ave., Madison.

Two young men that had been with Mr. Michailidis just prior to the shooting gave police a description of a

man they had seen in the area with a gun. From the description given, Madison police went to the suspect's residence in the 700 block of Madison Ave.

At the man's residence the suspect gave police a statement, officers said, adding that the alleged murder weapon was found in the apartment.

The suspect was placed under arrest at 9:35 p.m. Friday and was being held today in the Madison city jail, pending application to the Madison County

state's attorney's office for a felony warrant.

An autopsy is to be conducted by the St. Louis medical examiner's office, since he died in St. Louis, and an inquest into the cause of death will follow.

Mr. Michailidis was born in Pirauf, Greece, and had resided here since 1971. He was a student at Granite City High School South.

He was the son of James and Eleni Michailidis of Granite City, the grand-

son of John Michailidis of Pirauf, Greece, and the nephew of Andy Gitchoff of Granite City.

Funeral services are to be held at 11 a.m. tomorrow at Sts. Constance & Helen Greek Orthodox Church, 6800 State St., East St. Louis, followed by burial in Sunset Hill Cemetery, Edwardsville Township.

Additional details may be found in today's obituary column.

Explosion at GC Steel

An eight-inch natural gas main at Granite City Steel Co. was ruptured Thursday shortly before noon and exploded, ripping open the side of the old 80-inch mill building near its north end.

A lift truck hauling a hot steel coil too high struck the gas main while passing from one building to another. The driver began to back up after striking the gas main when either the heat from the coil or sparks from the truck ignited the gas and caused the explosion.

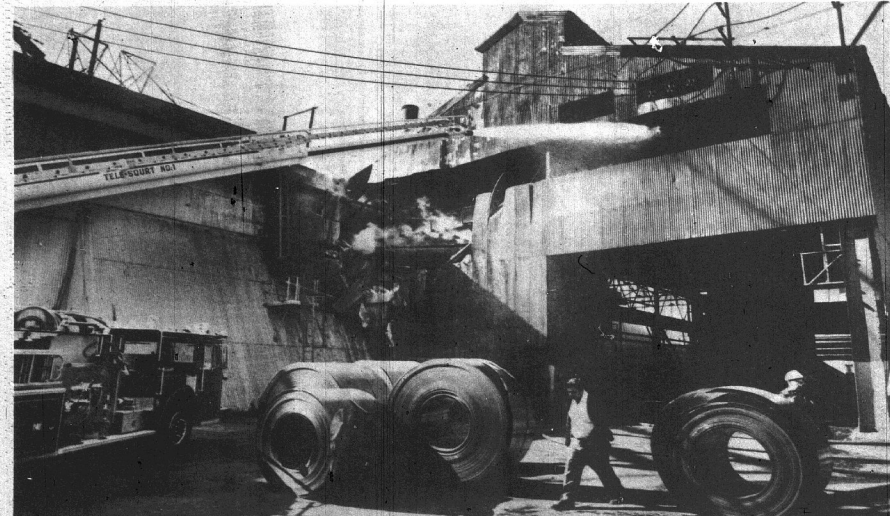

Neither the driver, nor anyone else in

the vicinity was injured in the blast.

The steel company's own fire department responded to the scene initially and called the Granite City Fire Department when the extent of the accident was ascertained.

Three pumpers, including the new Tele-Squirt unit, and two city ambulances responded to the steel mill at noon. Initial reports of the explosion given to the city fire department indicated the possibility of multiple injuries.

FIRE DAMAGES MR. ED'S LOUNGE. A fire last week did an estimated \$35,000 damage to the building and \$17,000 damage to the contents of Mr. Ed's Lounge, 705 Madison Ave., Madison, according to a fire department spokesman. The fire is believed to have started from an

electrical short-circuited near two coolers behind the bar and to have smoldered for several hours. Firefighters were at the scene for nearly three hours, with the Venice Fire Department on standby. Fifteen Madison firemen, three pumps and the rescue truck responded to the call.

Recession cuts earnings

Post Corporation earned \$291,000 or 16 cents per share during the third 1980 quarter, compared with \$639,000 or 35 cents per share a year ago. Nine months' earnings for the newspaper, broadcasting and commercial printing firm now stand at \$1,465,000 or 80 cents per share. In 1979, earnings for the same period were \$2,566,000 or \$1.41 per share.

Sharply depressed earnings of the company's suburban newspapers in the Boston, Cleveland, Milwaukee and St. Louis areas continue to be the principal cause of the company's drop in earnings this year, a spokesman said. He pointed out that the current recession has hit newspaper classified advertising especially hard, and said suburban newspapers are more dependent on this kind of advertising, than "central city" papers.

Post's broadcast division reported a four percent increase in operating profit for the third quarter. The division's performance for the nine months is 3½ percent behind 1979.

The firm's commercial printing division, which was enlarged by an acquisition earlier this year, is having a good year, the spokesman said. The division now accounts for almost 10 percent of Post's operating profit. Post owns and operates newspapers, radio and television stations and commercial printing plants in nine states.

Port hosts three foreign delegations

"We may very well call this month 'International Month'" at the Tri-City Regional Port District. During the month we have had three foreign delegations visiting the Port," Carl Ranft, general manager of the port, said yesterday.

On a Monday, a six-man delegation from the Bureau of Feeds and Grains for the People's Republic of China toured the port. The delegation was led by Tien Fu, head of the bureau and responsible for purchases and distribution of grains for China, Ranft said.

A 25-man delegation from Japan headed by Katsu Yamanaka, director of the Japan Feed Council, toured the port facilities that Wednesday. Members of the delegation represented more than 15 Japanese private companies engaged in the purchase of grains, especially soybeans from the United States. During 1979, Japan purchased four million tons of soybeans. This is equivalent to half of all the soybeans raised in the state of Illinois.

On that Friday, Jan Hiezenkamp, acting mayor, and Mr. B. Wilton, president of the Chamber of Commerce and Industry for the City of Rotterdam, Holland, headed a delegation of six members through a tour of Tri-City Port. The delegation arrived in St. Louis to make a business community of the metropolitan area of the many business and trade opportunities offered by the Port of Rotterdam and the Netherlands.

The Port of Rotterdam is known as the gateway to the European market and is recognized as the number one port in the world—handling 285 million tons of sea-going cargo in 1979.

The Tri-City Regional Port District proved to be an interesting place to visit for these delegations, Ranft commented. Tri-City is an important link in the transportation system transferring agricultural products into the world markets.

The American Soybean Association, with its world headquarters located in St. Louis, recognizes the vital role of Tri-City port, he added. During the last six

months, they accompanied visitors from Romania, Yugoslavia, Argentina, Japan and China to visit this port.

During the fiscal year 1979-80, the port district handled more than three million tons of cargo, mainly bulk agricultural products. These include more than two million tons of soybeans, soybean meal and soybean pellets and grains.

This tonnage represents a 35 percent increase over the previous year. More than 30,000 rail cars were handled at the port during this period. The port is well on its way the first six months of this fiscal year to setting another record, Ranft concluded.

2 injured on Pontoon Road

Two passengers in an auto operated by Donna L. Butkovich, 1601 Amos Ave., sustained injuries in an accident occurring last week at Pontoon Road and Franklin Avenue. The mishap also involved a vehicle driven by Sheila P. Kirk, 2003 Missouri Ave. Reportedly injured were Tracey Meyenburg, 12, of 2200 Woodlawn Ave., and Connie Cornelison, 36, of 3715 Fair Oaks Drive, both of whom were in the Butkovich auto.

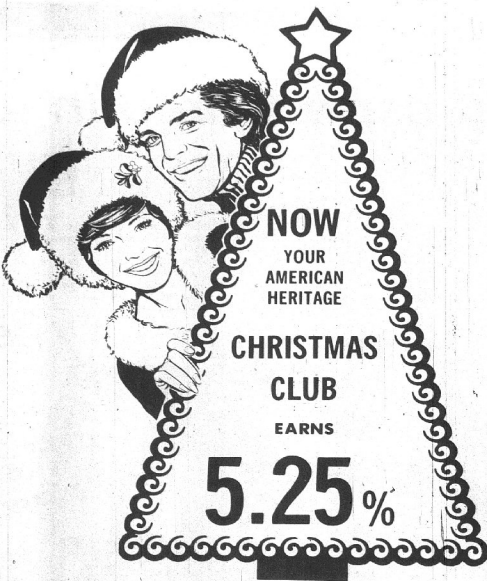

Passenger hurt on Grand Avenue

An auto operated by Dean E. Boyer, 39 Miami Court, being backed from a driveway at 2636 Grand Ave., last week reportedly struck the northbound vehicle of Charles D. Mayer, 2101 Woodlawn Ave., it was reported.

James Anderson, 16, of 2601 Cayuga St., a passenger in the Mayer auto was reportedly injured.

warehouses, is to be offered for sale. Granite City had planned to then make agreements with Madison and the port district to sell, lease or otherwise make portions of the property available to them for future industrial development.

That announcement "knocks all the plans we had completely out," according to Ranft. He said of the 5,000 feet of waterfront property currently owned by the port district, only about 400 feet still are available for development. "One new industry and we are booked up," he commented. More waterfront property is needed to provide barge loading facilities for industries which may locate in the port district's proposed 160 acre industrial park and 47 acre Foreign Trade Zone, he added. Plans were to use the waterfront property now on the Army Installation for the port district.

Schuler said the GSA officials gave the city, "An option but not much of one." The city can negotiate with the Department of Defense and attempt to reach an agreement by which the city will agree to relocate all of the buildings, tin and strategic material stockpiles on the southern 130 acres of the Army property to another portion of the installation, in return for the DOD agreeing to allow the city to buy the property.

"We can't do it, obviously, because DOD won't go along and the cost, probably over \$1 million, would be prohibitive," Schuler commented.

The disappointing withdrawal of the offer to sell the base property to Granite City, Madison and the port

came in the same week that a consulting firm for First National Bank in St. Louis identified the Tri-City Regional Port as one of five "priority development sites" in the St. Louis metropolitan area.

John McCarthy of Sverdrup & Parcel and Associates, Inc., announced at a luncheon Friday on the Robert E. Lee that its study, commissioned by First National Bank in St. Louis, had identified the five sites worthy of major funding for future port development in the area.

Clarence C. Barksdale, chairman of the board of the St. Louis bank, told the gathering, which included Ranft, "Since port development is the top priority, we at First National decided to do something to help."

A market analysis determined that industrial goods likely to benefit from development of the five port sites include aluminum production, chemical distribution, coal distribution, corn sugar production, ethanol production, fertilizer distribution, grain processing and handling, metals fabrication and petroleum products.

These industrial groups were researched and evaluated prior to selecting the five preferred sites, Barksdale said. He said the bank is initiating "a marketing blitz, during which bank officers will be making calls on prospective developers. This report is already in the mail to three targets—users of the Port of Metropolitan St. Louis in the immediate and surrounding areas, non-users who would benefit

from an association with this harbor, and national corporate headquarters with facilities located in this area."

He added, "Our sales force effort is being directed toward the matching of these sites with specific corporations. This effort will remain a priority for our calling officers for at least the next six weeks. After this period of time, management and key staff will remain committed to this project. I believe you will see the effects of this commitment for some time."

After the meeting, Ranft commented "I have read the report three times and it clearly shows that none of the sites has all the facilities needed, rail, roads, water and sewers, except our port, because we have worked for years putting it together."

"They did a good job of keeping from showing we are the number one site. However, I welcome this action by the bank. It is a lot easier to work with banks than working with government on a bi-state project."

"For the first time, a St. Louis bank is analyzing us and may provide some help, while we have had to use a Chicago bank for most of our major projects in the past. We have a good track record and I am sure the Chicago bank will continue to help us, in addition to this new help from the First National Bank in St. Louis," Ranft concluded.

The conference held Friday included officials of the bank and of Bi-State Development Agency, as well as governmental leaders and directors of the local port districts.

United Way seeks 75% of goal by luncheon

James Eisenbeis, general chairman of the 1980 United Way campaign, is hopeful of attaining 75 percent of this year's goal at the third report meeting of the campaign on Wednesday, Nov. 3.

Thus far, the campaign has netted more than 40 percent of the \$683,000 goal. "A total of \$322,382 is

needed over the next two weeks if that goal is to be made," Eisenbeis added.

Individual group chairmen are asked to call the United Way office by noon Tuesday, Nov. 4, to report any new pledges and to make luncheon reservations.

The meeting will be held at the YMCA beginning at noon. Lunch will be "Dutch-treat."

Nameoki awards bids

By GARY W. KRONK

At a special meeting last week, the Nameoki Township board accepted a bid on sidewalk construction in State Park from C. D. Peters Construction of Granite City.

At the previous board meeting of Oct. 13, a \$10,122 bid had been accepted from L&E Construction of East St. Louis for the project, but this company later declined the work.

Trustee Lee Adams made a motion to accept the next lowest bid, \$16,840 from C. D. Peters Construction. The board agreed unanimously. Bids for a senior citizen's van were also opened, and the contract was awarded to

Dave Croft Chrysler Dodge of Collinsville.

The bidders were: — Mid-West Handicap Equipment Co. of St. Louis, \$4,192 for a chair lift only; — Bo Beuckman of Collinsville, \$10,433 for a van only;

— Dave Croft, \$10,475 for a van and \$3,908 for a lift. The total for one unit was \$14,384.

Mathews Chevrolet Company of Granite City, \$10,437 for a van and \$4,200 for a lift, for a total of \$14,637.

The van is being paid for by a grant from Southern Illinois Area Agency on Aging.

Explosion

(Continued from Page 1)

Fire Chief Don Parente said that when his men arrived at the scene, "the fire was burning like a blowtorch and we had to wait about 15 minutes for the gas to be turned off before we could attempt to extinguish the blaze."

Another factor hindering the

firefighters was a 9,000-volt overhead power line which also had to be shut off before any water could be directed to the flames. Several small fires started at various places on the roof and the lift truck involved in the accident had to be extinguished as well.

The building was being used for a storage area and no personnel, other than the driver, were in the immediate area when the explosion occurred, firefighters were told.

The city safety crews were at the scene for one hour and 20 minutes.

4 bus routes here in danger

Four Quad-City area bus routes will end Dec. 31 if Madison County fails to begin providing a subsidy to the Bi-State Transit System, Darryl L. Thompson said Friday.

The system's intergovernmental affairs director said the lines slated for elimination are East Granite, with 55,857 route miles and 116,230 passengers in the 1979-80 fiscal year; West Granite-Stockyards, 91,409 miles and 135,670 passengers; Pontoon Express, 99,047 miles and 174,550 passengers; and Granite City-Hazelwood Express, 40,902 miles and 22,114 passengers.

Yearly operating cost and deficit per passenger were \$144,824 and \$1.04, \$240,555 and \$1.57, \$222,417 and \$1.05, and \$86,693 and \$3.57, respectively.

The four routes that are in jeopardy unless the Madison County Board creates a transit district this fall totaled 288,095 route miles and 448,564 passengers for the last fiscal year.

Continuing in 1981 will be the McKinley Bridge bus line, with 349,886 miles and 501,284 passengers, but it would be cut by approximately 20 percent, Thompson said. Its 1979-80 cost was \$879,291, with a \$1.48 deficit per passenger.

The Alton-St. Louis line also will remain, but its ability to serve the Granite City area is questionable, since it would also be cut by about 20 percent, Thompson added. It had 458,566 route miles and 237,705 passengers in 1979-80, with a \$804,481

cost and a \$3.73 deficit per passenger. Additional cuts are to be made July 1, 1981, if there is no subsidy. County board members have been advised.

In his October contacts with the board members, Thompson has urged, "Let's fix the bus system, not ruin it. A transit district needs to be created before the end of December to keep the system working. Let's fix it by working on it together."

Thompson said Bi-State records show there were 692,000 more bus passengers in 1979-80 than in 1978-79 on the routes which serve Madison County.

Major cuts in bus service also are scheduled in the Alton, Edwardsville and Collinsville areas.

Thompson comments, "We continue to face a funding crisis in the Illinois service area. Bus service in Madison, Monroe and St. Clair counties will be severely reduced unless action is taken. In fiscal 1980 ending June 30, we served 10,200,000 Illinois riders at a cost of \$14,200,000."

"We receive funds in Illinois through the 1974 Densmore Public Transportation Act, which until 1980 allocated 2-32nds of the sales tax collected in the three counties served. This money was used to pay part of the Illinois share of the operating budget."

"Those funds were not enough, so in 1980 the Illinois legislature increased the allocation for one year only to 3-32nds, with the provision that local matching funds be provided effective Jan. 1,

1981. The three counties need to establish local mass transit districts to provide local funds by that date."

"If the districts are established, the funding level reverts to 2-32nds, which is equivalent to about a quarter-cent sales tax. These funds, combined with the quarter-cent provided by the transit districts, would put Illinois on a funding par with Missouri, which provides a half-cent sales tax to Bi-State."

"Time is growing short, and the three counties have made no decisions on implementing the districts. If the districts are not created, the state funding level will plummet to 1-32nd at the first of the year and transit service in Illinois must be reduced an equivalent amount."

"Under Senate Bill 2020 as amended, a single mass transit district or separate county districts can be established by majority vote of the respective county boards."

"The area to be included would be any township or road district which received Bi-State service on June 1, 1980."

"Each district would be managed by a board of trustees and would have power to levy up to a quarter-cent sales tax and to contract for public transportation services."

"Trustees would be appointed for staggered four-year terms by the respective county board chairmen with the consent of the county board."

with traffic and small claims courts, a decision over which the appellate court has no control.

The 1980 election is not yet history, but Illinois Governor James R. "Big Jim" Thompson, who was a visitor in Granite City Friday, already has thrown his hat into the ring for the 1982 balloting.

"I'm here for Ronald Reagan (for president)," he told 100 Republicans at the Purple Creek Club in Alexander County last week. "But I hope you help Jim Thompson, because in 1982 I'd like to become the first governor in Illinois history to win three consecutive terms."

After watching the presidential election debate, Thompson noted that he has been "working my heart, soul, feet and tail off for Ronald Reagan, campaigning as hard as I ever have for my own elections."

"I wish I were running this year," Thompson said, while not making it clear whether he was talking about the White House in Washington or the Executive Mansion in Springfield. "I've never worked harder for any political candidate in my life. When you put that kind of time in, you wish you were the candidate."

"That's all there is, and I'll stand by it," Melvin Price modestly says in explaining why he thinks voters should re-elect him tomorrow. But he wasn't talking about anything diminutive in size. He was referring to his record in

office. An Army corporal when first elected to Congress, Price was promptly sent to Washington by the War Department; it was known by that name because the year was 1944.

There are no small aspects of the record he has compiled, since he has been in Congress ever since—a span of 36 years—and he sponsors several hundred bills a year, as well as trying to resolve the hundreds of problems that constituents regularly bring to his attention.

Illinois Chief Justice Joseph H. Goldenhersh, 65, Belleville, is running for another ten-year term although his age would not permit him to complete it, under Supreme Court rules.

Formerly an appellate judge, he has been a member of the state's highest court since 1970.

Goldenhersh has avoided taking a stand on capital punishment but says his opinion is "irrelevant," since he would follow the law, whatever it prescribes. He opposes establishing minimum requirements for judges.

Is he a good judge? He is willing to leave that up to the voters, but lawyers throughout the state gave him their highest rating of "highly recommended."

Justice Goldenhersh is a Democrat, although the retention ballot, by its nature, doesn't say so.

Other than the Mays-vs.-Thomas Welch race for appellate judge, there

isn't much competition for judges on tomorrow's ballots, unless you include the "anti" campaigns being waged by some lawyers against a couple of circuit judges who are seeking retention.

In the retention process, an individual who already has completed at least one full judicial term (six or ten years) runs on a non-partisan basis without a ballot opponent. To be "retained" (continued in office for a new term), he needs 60 percent support from voters.

Two of the judges running without opposition Tuesday are officially labeled as Democrats, however—Moses Harrison for appellate judge and Andy Matosian for circuit judge.

This is because they are still seeking voters' approval for their initial elective terms at those levels. The reason they are unopposed is that, well, nobody wanted to oppose them. Republicans ran nobody at all for the two positions.

President Jimmy Carter may not be on "friendly grounds" when he visits the Granite City High School South campus at noon Monday. During a mock election Friday, sponsored by the Social Studies Club, 800 students voted and showed a preference for Reagan with 418 votes. Carter had 286 and John Anderson 61. For the U.S. Senate, the students picked Alan J. Dixon over Dave O'Neal 546 to 253. They also showed they believe Mel Price has what it takes, preferring him 447 to 270 over Ronald Davinroy.

CREWS LIQUOR

Woman admitted after accident

Virginia Fay Wilson, 31, of 2528 Madison Ave., was taken by ambulance to St. Elizabeth Medical Center at 9 p.m. Saturday and admitted for observation, after the auto she was driving reportedly struck two parked vehicles in the 2100 block of Lincoln Avenue.

A man living near the accident scene said Mrs. Wilson's car attempted to round the curve on Lincoln and struck the parked auto of Charles D. King, 201 Madison Ave., Madison, knocking the vehicle up onto the sidewalk.

The witness said he was forced to jump to get out of the path of the Wilson car, which then continued on and hit a parked car of Judith White, 2127 Lincoln Ave., knocking it backward about 30 feet.

Mrs. Wilson was charged with reckless driving.

'On the Waterfront' showing

A winner of eight academy awards, "On the Waterfront" will be shown Thursday and Friday at Southern Illinois University at Edwardsville as part of the University Center Board's fall film series.

In the G-rated film, a priest sets out to smash mob control over the New York waterfront. Marlon Brando stars, along with Karl Malden and Eva Marie Saint.

Showtimes are 2:30 and 8 p.m. Thursday and 7 and 9:30 p.m. Friday in the Meridian Ballroom. Admission is \$1 for SIUE students with identification and \$1.50 for the general

public.

The final film to be shown in the fall series will be "And Now for Something Completely Different," Nov. 13.

GC children pick Reagan

School children in the Granite City area have chosen Ronald Reagan for president in a Weekly Reader-sponsored national poll of well over one million students.

Forty-five percent of the Granite City elementary through high school students who participated in the national poll picked Reagan.

The local children agreed with the Illinois statewide vote, which gave a plurality to Reagan.

The national winner was Reagan, who received 45 percent of the vote and carried 35 states, through six states were won by less than four percentage points.

If the student results are projected to the adult vote, Reagan's 29 safe states would give him 285 electoral votes, five short of the 270 needed to win.

But if only one of the 13 close states went for Reagan, he would win the electoral vote, and the election.

The student poll gave incumbent President Jimmy Carter 41 percent of the votes, and independent candidate John Anderson 14 percent. Less than one percent of the votes went to other candidates.

The poll is conducted by Weekly Reader, Current Events, and related school newspapers of Xerox Education Publications.

The poll's purpose is to help children become more aware of current events and get them to think about the presidential election.

"Kids really get excited about this project," says Dr. Terry Borton, editor-in-chief. "It gets them involved in the democratic process."

Since the first Student's Poll 24 years ago, the students have accurately forecast the results of every election

but one. That one was in 1968, when students voted for Robert Kennedy prior to his assassination.

In the Nixon-McGovern race of 1972, the students predicted that Nixon would take the White House. Nixon won every state but one; he lost Massachusetts.

This year, as results poured into the Weekly Reader and Current Events offices, editors and political analysts there kept a sharp eye on voting trends.

Reagan swept all but five states west of the Mississippi River. The Republican candidate also cut heavily into the traditionally Democratic South.

The only Southern state Mr. Carter took by a sizable margin was his home state of Georgia.

Pres. Carter won in some of the industrial eastern states, including New York and Pennsylvania.

**Awakes, finds
man in house**

Edward R. Martin, 2105 Kirkpatrick Homes, awakened in the night and found a man standing in his living room, he reported at 10:45 a.m. Friday.

The intruder was

described as in his early 20's with short black hair, 5 feet 7 inches tall and weighing about 145 pounds.

It was speculated the man entered the apartment through an open window.

Five cans of beer, a cigarette lighter and a package of cigarettes were missing.

Martin said.

Mays would be unable to fulfill promises—Welch

Thomas M. Welch (R-Collinsville), candidate for judge of the Appellate Court at Mount Vernon, has issued a news release charging his Democratic opponent, Robert Mays, with "violations of the canons of ethics," for circulating postcards promising to hire 25 percent blacks to work in the appellate court system. Welch said he feels Mays promises, "demonstrate a possible lack of knowledge of the law, a violation of professional ethics and deceit upon the voters."

He contended that only the clerk of the appellate court can hire employees in the court system, not the judges. This statement shows his total ignorance of the law in the duties and powers of an appellate court judge," Welch charged.

The postcard also pledges to have small claims and traffic court in East St. Louis. "Again, Mr. Mays is demonstrating his lack of knowledge of the law and the duties of an appellate court judge. The location of a small claims and traffic court is determined by the particular circuit, in conjunction and with the approval and financing of the county board in which said court would sit," Welch contends.

"It would appear to me that an East St. Louis attorney claiming to have such a unique law practice should know that the statutes do not give an appellate court judge the authority to tell the clerk of an appellate court he should hire, and if, in fact, he also knows that an appellate court judge cannot dictate to the circuit court judges and the county board where they should place satellite small claim and traffic courts, then he is making an intentional material misrepresentation of the facts, with an intent to deceive certain voters," Welch stated.

He added, "If Mr. Mays believes he can accomplish this by using the pressure of his office, then I would suggest this would be an abuse of that office."

"I find it very unfortunate that Mr. Mays would feel it necessary to campaign as he does, for it is my belief that the office of appellate court judge must stand above all

Initiated at Scottish Rite Cathedral

Robert D. Carpenter, Peter E. Peterson, Morris L. Ricketts, and Glenn A. Wright were among 34 Southern Illinois young men to receive initiatory and DeMolay degrees at Scottish Rite Cathedral as members of "Illinois DeMolay Grand Master William C. Chasey Sr." class.

Lewis and Clark Chapter, Chokio, conferred the initiatory degree while Templar Chapter, Rock Island, gave the DeMolay Degree. Illinois DeMolay State Master Councilor, Gerald W. Kelly of Alton obligated the new DeMolays with the DeMolay obligation and the "Flower Talk" was given by Thomas E. Jackson, state champion.

Anad Temple, A.A.O.M.S., hosted the DeMolay activity and served a complimentary noon chicken and dumplings luncheon. Russell Maxwell, director of Anad Temple, presided.

The evening featured a dinner and reception honoring Gerald W. Kelly as Master Councilor with Grand Master William C. Chasey Sr. of Alton, Pa., as special guest. Richard Miller, master councilor, headed the James Stuart Chapter delegation composed of: David Corbett, Matthew Cotter, Robbie Favier, Pat Gibbons, Greg

Treatment plant is praised

An Illinois Environmental Protection Agency inspection of Granite City's sewage treatment plant has led to praise for the municipality's "excellent effort" in complying with all standards.

The City Council has been informed that the plant was found to be in compliance and to be conducting proper operational and maintenance procedures. The Illinois EPA added that a review of August 1979 to July 1980 discharge monitoring report data showed "excellent" compliance. The state concluded with the hope that the city's excellent approach to its treatment tasks will continue.

Terrence W. McMillan, superintendent of the treatment plant, told aldermen that the work this month caused \$3,000 to \$4,000 damage, covered by insurance less a deductible amount. He was authorized to proceed with repairs and equipment replacement. Wind tore a ventilating cupola from the blower building roof, McMillan related. After the cupola damaged flashing on the roof, it blew off and struck

the wall of the aeration tank before dropping into two million gallons of sewage. When the tank was dewatered, the cupola was found at the bottom, having broken a dozen air diffusers there.

Council members were advised Tuesday night that Illinois Secretary of State Alan J. Dixon will be at the Granite City Democratic headquarters today from 10 a.m. to 5 p.m., and that aldermen wishing to comment on the Nov. 4 election results may participate in a South-Western Cable Television's first live local cable show from its headquarters studio in Maryville that evening.

Permission was given for Amvets Post 51 and its Auxiliary to sell white clovers Nov. 13-15 to raise funds for community service, child welfare, aid at veterans' hospitals and Americanism projects.

The Illinois Commerce Commission informed the city that it is making slight revisions in the state's uniform fuel adjustment regulations. The notice was referred to the city attorney for study.

A notice from Alderman Charles Douglas, who is an attorney, informed the city that John Kampman, a street department employee, was hurt May 16 near the Niedringhaus Avenue railroad crossing when he

slipped on iron ore pellets. Back and wrist injuries were cited. Douglas said that, if the city is sued, he will not handle Kampman's case since Douglas is a council member.

Scouts take nature hike

Cub Scouts of Den 3, Pack 141, Mitchell School, participated in a nature hike along the Southern Illinois University at Edwardsville bicycle trail.

The boys collected leaves, shells, rock and seed to be used toward achievements. Parfleche bags made in the den were used to hold each boy's collection.

The scouts also toured the Press-Record office in September as a part of their education in communications, the Cub Scout theme for that month. Scouts participating were, Ron Trimmer, Eric LaVelle, Scott Manning, Dax Aund, Barry Yates, Jimmy Dillard, Joe Whyers, David Dunlap and Philip Simpson.

Arrest man on Bi-State bus

Edwin B. McClelland, 21, of 146 Lee Wright Homes, Venice, was arrested last week and charged with disorderly conduct, after he allegedly made lewd remarks and advances to a 16-year-old Granite City girl who was waiting for her mother near the bus stop at 18th Street and Edison Avenue.

Police were told the mother arrived at the bus stop and found her daughter in a distressed condition, about the same time the bus was leaving. She followed the bus to 20th and State streets, boarded the vehicle and confronted McClelland after he was identified by her daughter.

An officer came to the scene as the bus was departing and halted the vehicle at 18th and State streets, taking McClelland into custody. The Venice man was released upon payment of a \$35 cash bond at 6:55 p.m. Wednesday.

Judge Mosele wins lawsuit

By ED GURNEY

Supporters of Madison County Circuit Judge Victor Thursday, a hearing on the charges that the county's chief criminal judge has been lenient on armed robbers, drug pushers, burglars and thieves.

Less than two hours after their press conference at the courthouse, a judge threw out a lawsuit against Mosele filed by one of his opponents.

Mosele is seeking to be retained as judge in Tuesday's election.

Mosele's supporters say a group of civil practice attorneys is opposing his retention because he has not given them favored treatment in court.

The group opposing Mosele, the Committee for An Improved Judiciary, also is opposing the retention Tuesday of Circuit Judge John DeLaurenti of Bond County.

The group supporting Mosele and DeLaurenti, called the citizens for a Quality Judiciary, presented information seeking to show that advertisements and statements from the judges' opponents are unfair and untrue.

Advertisements opposing Mosele's retention list seven criminal cases, and purport to show that he gave lenient sentences. The judges' supporters say that in some of the cases the original charge was reduced and Mosele's sentences only followed the recommendation of the prosecutor.

In one case, the ad indicated Mosele gave 30 months probation and a \$2,000 fine to someone charged with murder and manslaughter. His supporters say the charge was amended by prosecutors to involuntary manslaughter because the defendant had killed an assailant after he had beaten her twice in one evening and was coming after her a third time.

"The sentence in that case was proper," said John Rekowski, a Collinsville attorney who is a member of the committee supporting the judges.

The leader of the group, Paul Riley, said he was public defender for the county for eight years. In that time, "I never saw this kind of smear, this kind of half-truth, this innuendo-laden campaign," he said.

The civil practice lawyers seeking to oust Mosele "are no more interested in the criminal law than the man in the moon," Riley said.

Present to speak in support of the judges were Sheriff Emil Toffant and attorneys Rex Carr and Gerald Colon.

Carr said he was supporting Mosele, even though the attorneys opposing the judge were Carr's friends.

"I'm speaking of a vicious campaign sponsored by friends of mine," Carr said. "The only reason, to my knowledge, they're participating in because He (Mosele) has the nerve to rule against these men," Carr said. He added, "They want a judge they can dominate."

If "this kind of campaign" succeeds, any other judge could be next, Carr said.

Riley was critical of unsigned letters sent to many voters from the Committee for An Improved Judiciary.

Envelopes used to mail the letters were put through the same postage meter used by the Chapman and Carlson law firm in Granite City, Riley said.

Chapman's partner, Jon Carlson, helped argue the lawsuit against Mosele which was thrown out Thursday after a hearing at the Madison County courthouse.

The suit was filed by Edward Nalefski of Collinsville, secretary-treasurer of the group opposing Mosele. It sought to force Mosele to produce criminal records that were allegedly denied to two employees of Nalefski's group. The suit alleged that two clerks harassed the employees.

Circuit Judge Richard Cadagin, who came from Sangamon County to hear the case, said Nalefski's attorneys had failed to produce "clear evidence" that a wrongful action had taken place.

Attorney Glenn Bradford of Rosewood Heights, who helped Carlson argue Nalefski's suit, said the suit accomplished the worthwhile task of bringing out information about the retention vote.

Carlson said he thought this distribution of information was "very healthy for the public interest."

Friday, Mike Manning, political consultant for the anti-Mosele group, admitted that information he supplied for the newspaper advertisements and letters mailed to numerous county residents was distorted and had not been checked. He told reporters he became convinced at Thursday's press conference that the smear campaign was wrong and he was sorry for having taken part in it.

Police searched the area of the 2800 block of Ralph Street without success last week after an 8-year-old boy reported a man had exposed himself to the child in a nearby alley. The man was described as about 6 feet 2 inches tall, of thin build with bushy red hair and wearing blue jeans and a blue warmup jacket.

Hits parked car, two hurt

An auto being driven south by Joseph A. Barron III, 20, of 2310 Delmar Ave., in the 2800 block of Grand Avenue, at 8:30 a.m. Saturday, struck a car, owned by Marcia Hollis, 2905 Madison Ave.

Barron told police he had turned to say something to

his brother, Phillip A. Barron, 18, of the Delmar Avenue address, when the car swerved to the left and hit the Hollis auto, which was parked on the opposite side of the street.

Both Barron brothers reportedly sustained injuries.

Report needles, pins in treats

Three popcorn balls with needles and straight pins crudely inserted were turned over to Madison police by a group of concerned parents who met with officers Saturday at 9:35 a.m. at Second Street and Washington Avenue.

The popcorn balls had been given to youngsters who were "trick or treating" the previous night in that area, the parents alleged. One mother said her two daughters were each given popcorn in which straight pins and nails had been inserted.

Another mother showed police the same type of treat which had a needle sticking through the popcorn. Police are investigating.

Murder charge in GC case dismissed

Circuit Judge A. A. Naylor, 22, of 2315 Illinois Ave. Both dismissals were based on motions by the state's attorney.

Naylor was fatally stabbed by a knife thrown at his back during a disagreement in the 2200 block of Lee Avenue. The butcher knife traveled about 10 feet through the air and caused a deep, 12-inch cut from which he died within minutes, never regaining consciousness.

CAR HITS BUILDING: Considerable damage was caused last week to an apartment building owned by Frank Bury at 1047 Washington Ave., Madison, when the structure was struck by a car. A nearby resident said he heard a noise and saw a white car, occupied by two men, one with long hair, leaving the scene of the damage.

VOTE NO ON MOSELE

Paid For by Committee For An Improved Judiciary, P.O. Box 102, Granite City, Ill.

No one bids on Stallings

No one bid Friday on Stallings School, leaving it up to the Granite City School Board to decide tomorrow night whether to seek another auction or to utilize a realtor to find a buyer.

A Collinsville contractor who had converted Collinsville's McKinley School into apartments expressed interest during Friday's gathering at Stallings but was unwilling to meet the \$100,000 bidding minimum set by the board.

Whether the board will change the minimum is uncertain. It earlier reduced Granite City's McKinley School price from \$300,000 to \$200,000 and succeeded in selling it. But school officials believe Stallings is worth \$100,000, perhaps as offices for a business.

Unused for elementary classes since May 1979, the school was utilized in the 1979-80 year as a special education center by a Madison County agency. The center has since been located elsewhere.

Stallings is situated adjacent to a highway and railroad tracks, factors which made it less than ideal as a school but which could make it attractive to a business, Supt. B. J. Davis said. He plans no specific recommendation to the board, which has sought to avoid realty commissions in the disposal of surplus buildings.

The school district is in the

second year of leasing Washington School as the daytime Belleville Area College center here. It sold McKinley to St. Elizabeth Medical Center.

Presiding Friday were auctioneer Homer Henke of Muro and Madison County Regional School Supt. Harold E. Briggs, whose first teaching job and first principal position were at Stallings. All school property technically is owned by the Madison County Board of School Trustees.

Burgess placed on probation

Robert Burgess, 27, of 1928 Fifth St., East Madison, has been placed on 30 months' probation and ordered to make restitution of \$4,500.

The ruling was by Associate Judge Philip Harick in the Madison County Circuit Court.

Burgess was charged with felony theft occurring between Sept. 13, 1977, and Jan. 7, 1980, when he was employed at the former Ted's Hardware Store, 1918 Delmar Ave. He was arrested Feb. 26.

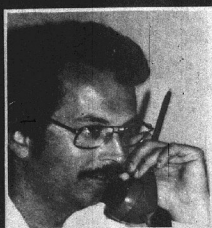

It was alleged that he removed hardware, carpeting and plumbing items from the store.

STEAL CHECK, CARDS: A state check for \$393, a food stamp card for coupons worth \$120 and a medical card were stolen from the home of Joyce Lance, 2033 Madison Ave., she reported at 8:30 p.m. Thursday. The items had been left on an end table in the living room, she said.

South ends Explorer hopes

By PETE HAYES

GRANITE CITY — The new kid on the block did himself proud here Thursday night.

Alton Marquette, competing in its first season of varsity soccer, didn't beat four-time defending state champ Granite City South in the semifinals of the South Sub-Sectional, it didn't really come close. But it did show that its 16-0-2 record was no fluke.

South began what it hopes is a trek toward its fifth straight state title with a 3-0 victory over the Explorers at South Field and the right to meet cross-town school Granite City North Saturday night in the sub-sectional championship game (see related story).

South got all three goals from Al-American David Fernandez. One was all the Warriors really needed, but they could have had more than the three they got. Four times South players had an open net staring them in the face and four times they hit the post. "We really didn't play well tonight," said South head coach Gene Baker. "We're not happy with our game. But Marquette is a good team. They've got some good talent and they're well-coached. People are going to be hearing from them down the road." In this inaugural season for the Explorers, the varsity lost one game and the junior varsity went undefeated.

"I'm proud of our record," said Marquette head coach Joe Gentlin. "But what hurts is that the one loss we suffer all season is the last game of the season. We knew we'd have to play as good as we could tonight to beat South, but we came in here confident. We thought we could play with them."

South, perhaps, could have accused of looking past the Explorers, despite their unblemished record. But Baker did all he could to try and discourage that. "I saw them (Marquette) twice," he said. "I knew they weren't going to come in here and lay down for us."

Quite the opposite! The Explorers looked anything but awed by the Warriors and their big crowd and their drum brigade and their four state championships. "We weren't scared at all," said Gentlin. "But they (South) are just a super team. The best we've played all season easily. We wish them all the luck."

Marquette controlled the momentum in the first three or four minutes before South got untracked. Once the Warriors did find their game, it was just a matter of time.

Fernandez gave the Warriors a 1-0 lead at the 18:23 mark on an unassisted goal following a scramble in front of the Marquette goal. But despite outshooting the Explorers 17-2 in the first half, that one goal was all the Warriors could get. "Our offense has gotten most of the coverage this season,"

said Gentlin. "But our defense outshined the offense tonight. I thought we played a strong defensive game."

But in most instances, South would get right back on the attack after Marquette cleared the ball out of its end with a long kick.

Fernandez put the game out of reach in the third quarter with a pair of goals. His first was scored before the fans had a chance to settle back into their seats following halftime. He scored unassisted with 18:34 remaining in the period.

The fourth quarter was a chance for South's bench to see action. South had a whopping 30-4 advantage in shots and had nine corner kicks to Marquette's three. The Warriors whistled for 20 fouls, the Explorers for 25. South goalie Joe LeMaster made two saves while Marquette made 12.

"David won the game for us," said Baker. "He's got the tournament experience and that's important. He's been here before." Fernandez has been a starter on the last three state championship teams at South.

Steelers top Alton kickers

By TOM SCHOCKER
of the Press-Record

GRANITE CITY — The Granite North soccer squad must be in good faith with somebody. Either that, or lady luck has been doing overtime work. According to Steeler head coach Bob Kehoe, North didn't play well again here Thursday.

Yet, they still won. Moving up in IHSA Sub-sectional competition with what Kehoe called a "forgetful performance," Tuesday against Madison, North took on a determined Alton Redbird team. Staging off a late rally, the Steelers held on for a 2-1 win, but give credit to the North defense and goalie Rich Branding for preservation of the score.

The victory advances the Steelers into the finals where they will meet, none other than, Granite South. A third meeting between the two neighboring schools. South won the right to play North when they defeated Alton-Marquette (see related story).

The Steelers might have to

feel lucky they are this far in the competition. For the second game in a row, North had to practically hold its breath until the final buzzer.

While sophomore goalie Branding had to feel like he was up against a firing squad. In the last minute of play, with the Steelers up by a goal, the Redbirds sent a flurry of shots at Branding. Within a span of 25 seconds, Alton let loose at least four bullets. With the action so furious, the count may have been higher. If not for the North defense and the incredible saves by Branding, the season could have come to a swift end for the Steelers.

"Rich is only 14 years," said Kehoe. "He'll be a fine keeper when he gets older and becomes a little quicker." Branding's quickness looked all right in that last minute. He came within three saves of the battle which brought his total for the game to seven. Alton made sure he had his work cut out as they drilled 15 shots. North dished out 18.

Branding's performance was well received. He was filling in for the injured Rob Chapman. "Rob was hurt in practice Wednesday," said Kehoe. "He hit his knee on the ground and it was one that was hurt before. Whether he plays against South will be up to him. I always leave that decision up to the player. We have him tell us how he is. He's normally very quick, so we'll know right away if he should prevent him. I wouldn't want to effect his performance and outcome of the game."

The outcome of North's contest was slow in unveiling. The Steelers didn't get on the board until the second period and that goal was even a judgement call. Lee Gavlick set up the score when he hit a perfect curving corner kick.

Alton's goalie, Matt Mormino, snagged the liner, but lost his balance thinking he was falling past the goal line. In order to score himself, he dropped the ball. By that time, Paul Barrington came into the play and headed the ball

away from the keeper, into the net. "That goal was a gift," said Kehoe. "Thank God we had a player like Barrington there."

With the start of the second half, Alton took the game to the Steelers, missing countless chances for the equalizer. "We played about as well as we could," said Redbird head coach Larry Montgomery. "We had enough chances. This is the first time we have been at full strength in 19 days. They beat us 4-0 the last time we met and we had a lot of players out."

Alton's relentless surge to the goal finally paid off midway into the third stanza. Tom Hays directed a perfect pass in front of the Steeler goal, where Darrin Jones just had to boot it in. It was easy. Almost too easy.

"We have fallen into the rut," said Kehoe. "They want to kick the ball as hard as possible and hope a teammate picks it up and scores. You're happy that you won, but we have done so today and Tuesday and didn't play good either day. I

have to give credit to Alton. They are a much improved team. They can down here to beat us."

Steve Trittschuh gave Kehoe one smile in the game when he joined Barrington to provide the winner in fine fashion. Two quick passes and a final one to Trittschuh found the far corner post. The score completely flattered Alton as it came just 1:03 after the Redbirds had drawn even.

"We end up in a '2-4-3' record," said Montgomery. "It seems that when we play a good game, we either tie or lose by a goal. I kind of hate the sub-sectional we're in. I think we could have won in any other."

The last barrage to end the game could have changed that. I thought over time and penalty kicks," said Kehoe. "I thought they would score. They (North) got me stumped. If we play like we did today against South, we'll get annihilated. We have to get things straightened out in one day. How can you do that, if you haven't been able for the last two weeks."

Trojans finish campaign with loss

By DOUG IRVIN
For the Press-Record

MADISON — The Trojans eleven of Madison High ended their 1980 campaign on a sad note, here Saturday afternoon. They lost 40-0 to the Freeburg Midgets in the Quad-County Conference game. The experience-lacking Madison squad settled for a 2-7 season, but

with hopes of a better one next fall.

Junior quarterback Mark Zarr led his Trojans to a total gain of 232 yards, but failed to cross into the end zone. His teammates rushed 44 times for a gain of 182 yards and Zarr completed four out of 14 passes for 50 yards. Freeburg gained 367 yards and scored on six different

times — all touchdowns.

Coach Al Von de Harr wasn't too thrilled with the news of his 232 yards. Sure he was pleased with the yardage, but he still didn't score. "The amount of yards gained doesn't mean a thing," said Von de Harr. "You have to get across the line."

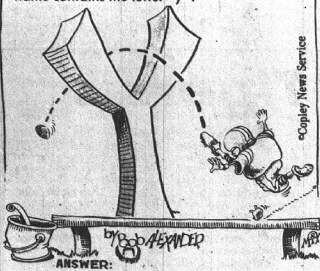

Freeburg got the ball first. The Madison defense held them on only five yards before Bill Clossen punted. Madison's senior running back, Bernard Harper got seven yards on the return to the 35. Eleven plays and three penalties later, Zarr punted. But, the Trojans did march the pignin 25 yards down field.

Then the Midgets started scoring. First, Bill Hatfield dove from the one. Paul Wolf's conversion kick was good. 7-0. John Davinroy scored next for Freeburg from two yards out. Wolf's kick was good. 14-0. Quarterback Dirk Down threw 12 yards to Jolla Robinson. Wolf's kick was good. 21-0. Hatfield took a pitch and went in from the one, but Wolf's kick was block. 27-0. Mike Vogel ran in from the five and Wolf's attempt was good. 34-0. Freeburg's last scoring drive was a 40 yard fumble recovery run back by Robinson. The conversion failed.

Warrior gridders finish 0-9

By TOM SCHOCKER
of the Press-Record

ALTON — If the Granite City South Warrior football team didn't break the year-long hole of failing to win a game, they did manage to erase one curse. They scored for the first time in four games.

A disappointing season was concluded for the South when they were dumped by the Alton Redbirds Thursday 30-8. A year that ends with an 0-8 record for the Warriors.

"We have had so many things go wrong this year," said South head coach Stan Wojcik. "It's really incredible." You say might

Alton was incredible. They could do nothing wrong as finished on an upswing with a winning season at 5-4.

Holding the Warriors off the scoreboard through three quarters, Alton's defensive crew, especially its secondary coverage, were flawless. In addition to forcing South to cough up the football twice, the Redbird defense also picked off four passes.

It wasn't until the last four and a half minutes of the game that South put together a solid, grinding attack. One that looked so good, you might wonder why the Warriors hasn't been able to do it before.

Mixing up the run and pass, South moved from its own 26 yard line. Using Mark Clark on the ground and Don Keeling in the air, the Warrior ate up the remaining time in the fourth stanza. Clark carried the ball seven times in the 10 play drive. He even took advantage of the halfback option play to hit Keeling in

the end zone with a 7 yard pass. The Warriors were successful on the two point conversion attempt when Quarterback John Linhart connected with Rich Daily.

Keeling was on one of the receiving end on three of Linhart's seven completions. As South's leading pass catcher in the game with 41 yards, Keeling needed four warm-up losses before he grabbed Linhart on the other hand, couldn't find the touch as he attempted 21 passes gaining just 80 yards.

"I'm glad we scored," said Wojcik. "I wasn't planning on running as much as we did. When we got it moving, we stayed with it." South's running game was better than normal. Clark and Mike Medina was the only work horses, as they piled up 189. It took Clark 19 carries to gain his 100 yards and only 7 by Medina for a total of 89 yards. "I didn't plan on them (South) running," said Alton head coach Wayne Williams. "I didn't think they could run on us. They

did and they did it very well."

It was the Alton ground attack that was exceptional. Jeff Musgravy and Chris Henderson each scored two touchdowns apiece for the Redbirds. Henderson also racked up 90 yards on four attempts while Larry Morris ran for 91. Alton totaled 252 yards. "We were a little bit loose tonight," said Williams. "Our speed beat them. You can practice against it during the week, but it will be quite faster than you're used to when you actually go up against it."

The game, for all practical purposes, was over in the first half. Alton struck quickly, scoring on its first two possessions. "They ran the reverse well," said Wojcik. "They had pretty good speed on the outside. We did everything we could to contain them."

Everything just wasn't enough. The Redbirds rambled in from 37, 54 and 59 yards. If things weren't bad all ready, the Warriors were also caught for a safety. On the 15, a bad snap on a punt sailed into the end zone and out of play.

In addition, South's Dave Seitzer sparated his shoulder in the second half.

The game, for all practical

EDWARDSVILLE — Looking for one final victory before heading into regional championship competition Nov. 8-9, the women's field hockey team at Southern Illinois University at Edwardsville will host St. Louis Club II, Sunday (Nov. 2), in a 1 p.m. game.

Over the past weekend, the Cougars beat Principia College, Saturday morning 5-1, before losing at home Sunday, 2-1, to St. Louis Club I. SIUE's record is now 16-9-3.

SIUE's game against Principia had a lot of offensive action in the first half as Pat Alemond, Marcy Bunch, and Beth Wyatt all scored for the Cougars.

Sunday's contest with the St. Louis club team was close and well-played, according to Coach Hedrick. Where offense had been the name of the game Saturday, defense was the rule Sunday.

Vikki Moberly of St. Louis made the only goal of the first half, 12:30 into the game. Hedrick's team failed to score on the second penalty corner in a row. Moberly took the ball on the rebound from Cougar goalie Cathy Blondo and Ben in a long shot from the right side.

Karen Shearin scored for St. Louis after 48:30 of play, making the score 2-0, in their favor.

Kristoff presents clinic

MURPHYSBORO — Southern Illinois University at Edwardsville wrestling coach Larry Kristoff will present a clinic Friday and Saturday (Nov. 7 & 8) at Murphysboro High School. The clinic is intended to introduce more advanced techniques and improve wrestling competition at the high school level in southern Illinois.

The Friday session will begin at 6 p.m. and run until 8 p.m. There will be two sessions Saturday, running from 10 a.m. until noon, and from 1 to 3 p.m.

Kristoff, a popular and capable mat clinician, is well known both as a coach and as an athlete. His teams at SIUE are consistent contenders for the NCAA Division II title, and he has coached his wrestlers to 36 individual All-American awards in eight years. On the international level, Kristoff was the coach of the U.S. World Cup team in 1975-76, and was the head coach for last year's Spartakade competition held in Moscow. Recently, Kristoff was named assistant coach of the U.S. World Games squad for 1981.

As a competitor, Kristoff has won an unprecedented 17 national titles, including NCAA championships in 1963 and 1964 as an undergraduate at SIUE.

Kristoff, a native of Ann-Jonesboro, is recognized in wrestling circles for his wide knowledge of wrestling skills. He will be assisted at the clinic by two of the finest wrestlers in the history of SIUE, One Mark Hattendorf was an NCAA champion under Kristoff and was a four-time All-American. The other, Tim Ervin, is senior captain of the current SIUE squad and a two-time All-American. Both Ervin and Hattendorf are respected for their perfect execution of the sport and their spartan-like physical conditioning.

"It was an unfortunate thing it had to end that way," Voellinger said.

ONE ON ONE. Granite North's John Sikora (13) tries to take the ball past South's David Fernandez Saturday night in the championship game of the Granite City South IHSA Sub-Sectional. South won, 1-0.

Canada takes series lead

NEW YORK — The United States National Team, coming off a frustrating scoreless tie with Canada Oct. 25 in a contest dominated by the Americans, will take to the road to face the Canadians Nov. 1 in Vancouver. The return engagement with Canada, to be staged in the Queen City's Empire Stadium (1 p.m. PCT), will be the second game for the U.S. in qualifying competition for the 1982 World Cup in Spain.

With a pair of ties in its two World Cup qualifying matches, Oct. 18 vs. Mexico (1-1) in Toronto and Oct. 25 (0-0) in Ft. Lauderdale, Canada has taken the early lead in the three-national Northern Zone qualifying tournament. The Canadians have two points in two games; Mexico and the U.S. each have one point in one game. The onus is now on the Americans to keep the high-flying Canadians in check in

the six-game, round-robin tournament.

"I feel very confident we can win in Vancouver," said U.S. National Coach Walt Chyzowych. "We have to come up with a good result — no question about that. Every game in a short tournament like this is crucial. We need a win in Vancouver to improve our chances. Anything short of a win would be a disaster for us. But in our minds, we're planning on winning up there."

In Vancouver, the U.S. will be returning to the same facility that was the site of the 1976 World Cup qualifying match between the two countries, Empire Stadium. The 32,500 artificial turf facility, the home field for the NASL's Vancouver Whitecaps, was the site of a 1-1 draw during qualification play for the 1978 World Cup

in Argentina. Boris Bandov, a starting midfielder player for the U.S. Saturday night, scored the Americans' lone goal last time around, while goalkeeper Arnold Mauser, who was in the nets Saturday, was the starter four years ago.

In the opener for the U.S. in CONCACAF (North, Central America and the Caribbean) Northern Zone competition for the 1982 World Cup, in a game played before 7,000 in Ft. Lauderdale's Lockhart Stadium, the Americans held a large territorial advantage, outshot the Canadians 14-9 and had a commanding 12-3 edge in corner kicks. Central defender Ricky Davis has the best scoring opportunity but Canadian goalkeeper Tino Lettieri of the Minnesota Kicks stopped his point-blank attempt from eight yards in the 33rd minute. Five minutes earlier, a left-footed shot by Canada's Mike Stojanovic (Rochester

Wrestlers in training

EDWARDSVILLE — The Southern Illinois University at Edwardsville wrestling squad, headed by Coach Larry Kristoff, is engrossed in training for the 1980-81 season which opens Nov. 22. The Cougars have three returning All-Americans: seniors Tom Reed, Tim Ervin and Norm Mitchell. The three seniors are also tri-captains for the season. For the past three weeks,

Kristoff has been putting his men through grueling outdoor workouts, which consist of vigorous calisthenics and a great deal of running on the hills which are so abundant on the 2600-acre campus at SIUE. But, the Cougars squad has had no formal wrestling practice so far this fall.

Coach Kristoff believes his athletes should be in great shape before they even try to

wrestle. "Wrestling is a very physical sport, and because of that, injuries are so common. I think it is irresponsible for a coach to send one of his kids out there to wrestle before he is ready. We avoid a lot of injuries that other schools get simply because our conditioning is superior."

There is another benefit from hard, pre-season workouts. "A wrestler can

win a lot of matches just by being in better shape," Kristoff said. Tom Reed is a perfect example. Many a time Reed has been behind in a match, only to come back and win by virtue of his conditioning, and you can see where it has gotten him."

Reed has been an All-American in each of his previous three years at SIUE and is without doubt one of the best 118-pounders in the United States.

Reed has also proved that he can win at 126, where last year he defeated two of the top six wrestlers in Division I. Reed just may move up to 126 this year to make room for Paul Preising. Preising is a transfer from the University of Utah. Utah dropped its program, so Preising is eligible immediately and has two years remaining of collegiate competition.

Kristoff commented, "Reed and Paul wrestle each other, and they are neck and neck. The matches are real dogfights." Knowing the caliber of Reed, this seems to give the Cougars a good one-two punch. The Cougars will practice indoors until the season opener, the St. Louis Open, which will be held Saturday, Nov. 22, at Forest Park Community College.

VENICE PERFORMANCE is planned by dance students of Southern Illinois University at Edwardsville. They are practicing for a performance Nov. 14 at Venice High School. The show is choreographed and produced by the SIUE Dance Company for its fall tour of area high schools.

File 6 charges after incident

Brian R. Oakley, 23, of 2049 State St., was booked on six charges last week, following an incident which started at a Granite City tavern and continued at police headquarters and later at St. Elizabeth Medical Center.

Oakley was held Tuesday on two charges of aggravated assault, two charges of battery, one charge of resisting arrest and one charge of disorderly conduct.

The incident began when officers were called to the Long Branch Tavern, 2105 Grand Ave., where an argument, alleged to be between Oakley and another man, had broken out. Oakley, who was armed with a knife, was taken to St. Elizabeth Medical Center, where efforts were made to treat him for cuts above the eyes. He allegedly was abusive to hospital employees, refused the emergency room physician's attention and struck his head on a table while in the X-ray room.

A police sergeant and another officer received emergency treatment for hand injuries incurred during the arrest.

It was noted that some police equipment had sustained damage during the station incident.

City joins insurance association

The Madison City Council approved joining the Illinois Municipal League Risk Management Association at the last council meeting.

"I believe this is going to be really beneficial to us and, in fact, to all the cities. The first year's premium is \$21,190. Just a few years ago we were paying \$52,000 for liability alone," Madison Mayor Mike Sasyk said.

The council was informed by Madison County Community Development that demolition bids would be advertised for structures at 802, 804 and 810 Webster St., Madison.

Alderman Thomas Gordon reported that the aldermanic ambulance committee will be meeting with the city fire chief and will make a report on the feasibility of a city ambulance service.

Seven bids were opened, read and referred to the city purchasing committee and Chief of Police Donald Bridick on two new police cars. After studying the bids and specifications, a recommendation will be made to the council at the next meeting.

The council approved the increasing the fee for answering a fire call outside the city limits from \$350 to \$500, due to rising costs.

The Madison Fire Department cadet program was given permission to recruit up to 10 cadets between the ages of 18 and 35. Persons must go through the cadet training program before becoming a fireman in Madison.

Anyone interested in more information on the program may contact Lt. Mike Mack of the MFD at 876-6268.

"Before closing I would like to tell everyone here about Explorer Post 10-4's Haunted Castle in the 1300 block of Madison Avenue. Even being a group, it was really enjoyable. I went through it Sunday with Sam Vadalabene and Don Brick and we really enjoyed it. I hope you will all visit it and tell others about it, they have a fantastic show," Sasyk said.

MR. AND MRS. DANIEL REED. They were united in marriage at Niedringhaus United Methodist Church. The daughter of Mr. and Mrs. Leonard E. Gertsch, 1614 Garfield Ave., the bride is the former Cheryl Ann Gertsch.

Reed-Gertsch wedding at Niedringhaus Church

Wedding vows were exchanged by Miss Cheryl Ann Gertsch and Daniel M. Reed in a double ring ceremony on Oct. 18 at Niedringhaus United Methodist Church. Officiating at the 6:30 evening service was the Rev. Louis Frick assisted by Father Joe Lawless, chaplain at St. Elizabeth Medical Center.

Burning tapers in aisle standards, festooned with clusters of hatter's daisy poms and fall flowers tied with orange ribbons, illuminated the white carpeted aisle and altar which was decorated with bouquets of matching flowers.

Organist Miss Lisa Groothuis accompanied Miss Dottie Robins and Douglas Ferguson, vocalists. Nuptial selections included "Hallelujah Chorus," "Wedding Song," "Sabbath Prayer," and "Jesus, Joy of Man's Desiring."

Given in marriage by her father, the former Miss Gertsch wore a formal length white organza gown fashioned with an empire bodice accented with a high lace neckline and an oval lace insert etched with pearls.

Lace motifs were repeated on the cuffs of the long sheer bishop style sleeves. A tiny lace trim encircled the softly flowing skirt and chapel train.

Brussels lace bordered the fingertip veil of bridal illusion attached to a lace and pearl headpiece. She held a colonial bouquet of white miniature carnations, greenery and baby's breath. Maid of honor was Miss Linda McDonald and Miss Patty Bader and Mrs. Michael Seibold served as the bridesmaids.

They selected identical style floor length dresses in a deep rust copper. The dresses featured a draped cowl neckline with a scoop in the back, short angle sleeves and full circular skirts.

Each attendant carried bouquets of daisy butterscotch pom poms and bronze carnations with baby's breath and wore similar blossoms in their hair.

Robert Reed attended his brother as best man. Thomas Troll, William Neu, Dr. Russell Gertsch, a brother of the bride, Thomas Reed, another brother of the groom, and Robert Neu

Dr., Mrs. Smith parents of girl

Grandparents are Mr. and Mrs. Duane C. Smith of Granite City, and Mrs. Joan Fitzgerald of Oklahoma City, Okla.

Shower honors Mrs. Sollberger

A baby shower honoring Mrs. Dennis Sollberger, the former Terrie Lynn Poore, was given in the home of Mrs. Maurice Burgess, 2564 Stratford Lane.

Hostesses were the honoree's sisters-in-law, Mrs. Dale Harris, Mrs. Paul Sollberger and Miss Christy Lombardi, all of Granite City.

Those attending included Mrs. Leanna Poore, mother of the honoree, and Mrs. Peggy Sollberger, mother-in-law of the guest of honor. Also present were, Kathy Powell, Marie Lombardi, Brenda, Donna and Bridget Watson, Kay Brake, Zola Burgess, Janice Patton and Sara.

Dolores Carson, Evelyn Sollberger, Sandy Lane and Sharon, Rachel Larsen, Glenda Moore, Sue Kowalski, Diane Morgan, Kathy Ruebhausen, Josephine Randall, Sue Gifford, Janet Fineschreiber and Lauren Moran.

Games were played and prizes were won by Leanna Poore, Peggy Sollberger, Brenda Watson and Josephine Randall.

Guests were served punch, coffee and cake from a table decorated in a yellow and gold baby blocks and bottles theme.

Secretaries hear convention report

The Granite City Association of Educational Secretaries met for a dinner meeting at Burns Cafeteria, last week, and heard a report on a state meeting.

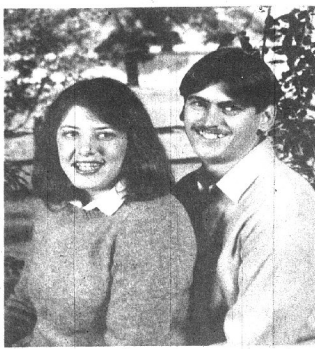

The 44 secretaries present including four guests from the Madison School District, Edna Mae McLinn, Dolores Brunet, Bernadine Weidner and Gladys Watts, were welcomed by Pat Uzunoff, president of the organization.

After dinner, Betty Williams introduced Mrs. Judy Stille, owner of Tops Bottoms Shop, who presented a fashion show using educational secretaries. Models were Marge Burdge, Alice Campbell, Priscilla Consiglio, Barb Dickerson, Arlene Haldeman, Vivian Hillen, Nancy Rosales, Betty Spengler, Gladys Wallace and Lucy Stucke.

During the meeting Lucile Caban, secretary at North High School, gave an interesting report on the highlights of the state meeting held in Galesburg, Ill., in September and Catherine Witevrong, secretary at Parkway School, reported on the National Convention held in New Orleans.

The committee in charge of the program arrangements was, Marge King, Shirley Kramer and Betty Williams.

WE URGE YOU TO VOTE 'NO'

ON THE LEGISLATURE CUTBACK AMENDMENT WHICH WOULD TREMENDOUSLY INCREASE CHICAGO'S INFLUENCE IN THE LEGISLATURE AT DOWNSTATE EXPENSE!

HERE'S HOW!

Right now, out of 22 Chicago Legislative Districts, there are 45 Chicago Machine-controlled Legislators, and 21 Republican Legislators (who often vote with downstate Legislators). If the Cutback Amendment from 177 to 118 Legislators passes — the SAME 45 Chicago Machine-controlled Legislators WILL REMAIN — (the 21 Republicans will lose) — and 45 Chicago-controlled votes are DANGEROUSLY CLOSE to the 50 majority votes needed (out of 118) to pass any law. (Now, 89 votes out of 177 are needed.)

CHICAGO SCHOOLS ARE IN FINANCIAL CHAOS, DUE TO PATRONAGE PRACTICES AND MIS-MANAGEMENT. They are looking to the Legislature and the rest of Illinois to BAIL THEM OUT. (They have been to Springfield this past year, for a bail-out WHICH FAILED!) Next year, Chicago schools expect a \$50 million deficit if the cutback passes, the 45 Chicago-controlled votes will be close to the 50 votes needed to pass any bill. Chicago's influence will be drastically increased. DOWNSTATE TAXPAYERS! ... will be called upon to pay for Chicago's problems FOR YEARS TO COME!

Mr. Geo. Dunne, Chicago's Cook County Chairman, is "FOR" The Cutback!

WE, IN DOWNSTATE ILLINOIS, SHOULD ...

VOTE 'NO'

ON THE LEGISLATIVE CUTBACK AMENDMENT. "YOUR 'POCKETBOOK' IS AT STAKE!"

have achieved the CPS designation.

Members of the Tri-Cities Chapter, The National Secretaries Association (International), are also backbones of the CPS and with two of their seventeen members having received the rating.

Mrs. Charlie Vunovic, secretary to Edwin S. Jones, chairman of the executive committee, First National Bank in St. Louis and First Union Bancorporation, received her CPS rating in 1959, two years prior to the formation of the Tri-Cities Chapter.

Mr. Gail Foley, secretary to Paul Hatfield, vice-president, Ralston Purina Co., not only received the rating, but has been employed by Peabody Coal Co. to conduct special CPS courses for their employees interested in sitting for the exam. In addition, Mrs. Foley has taught the CPS course at Belleville area College and at other places in the Metropolitan St. Louis Area. There are over 10,000 CPSs in the country at this time, it was announced.

As important as CPS is to members of the Tri-Cities Chapter, even more important is their continuing education. Secretaries Association chapters sponsored by the local chapter at three local high schools, Granite City High School South, Granite City High School North, and Madison High School, your initiation ceremony at Central Christian Church was an important highlight in the chapter's history, since it was the 10th anniversary since chartering of the first FSA chapter, with 34 members.

The original faculty advisors, Glenn Hubbard and Judi Sparks, were eventually replaced as demands on their time caused them to resign. Mrs. Sparks with seven years as faculty advisor, has served the longest. She was replaced three years ago at Granite City High School North by the present faculty advisor, Mrs. Linda Haddox. Following Glenn Hubbard at Granite City High School South were Lucille Aramowicz, Pat Stamps, Jeanette Holder and this year's new faculty advisor, Patricia Allen.

Lending guidance, assistance and encouragement behind the scenes since the actual formation of the original chapter has been Joe Hanson, who heads up the Business Education Department at South.

Serving as FSA Chairman from the Tri-Cities Chapter since 1971 is Mrs. Vunovic, with one reappointment to this position being her attendance at each FSA

meeting. Meetings at Madison High School are held immediately at the close of the school day, from 2:30 to 3:30 p.m., and Mrs. Helen Gieselmeyer, who was granted permission from her supervisors at Madison Metal Decorating Co. to be away from work to attend Madison FSA meetings, has been serving as chairman for this chapter.

Through the years over 1,500 students have been FSA members. At one time the Tri-Cities Chapter also sponsored a fourth FSA chapter at Central High School in Breese, Ill. The Tri-Cities Chapter is the only one in the state of Illinois to sponsor three chapters, which President Twila Edmonds brought out in her talk before the parents and members at the ceremonies. Last year there was a total of 153 junior and senior high school girls in the three chapters. Mrs. Edmonds also expressed appreciation to Mrs. Vunovic and Mrs. Gieselmeyer for their work with the local chapters.

The six educational programs which must be held each year are arranged by mutual agreement of the FSA officers, faculty advisor, and the guidance of the NSA representative. Through the years their programs have included such varied subjects as the right and wrong way to apply for a job, a skill showing how not to run a meeting, job experts showing the members how to protect themselves, a panel of bosses telling the group what they look for in a good secretary, and what turns them off the fastest, as well as a panel of secretaries from large and small companies who tell about their experiences and why they like working for their companies, and which type of company to try to get hired by if the primary goal is for a high salary.

One of the most popular panels, however, is the FSA Alumni panel, recent graduates who have seen on the job from three months to three years, who can relate to the audience and assure them that having a job and making a salary are not impossible and sometimes be more enjoyable than going to high school.

Always an interesting subject to the members is correct telephone usage, and a film humorously depicting the "how to" and "how not to" use and/or abuse of the telephone was shown at Monday's meeting at North High School. The title of the film was "If the Shoe Fits"

Of equal interest has been speakers on personal improvement, whether it be hair styling, clothes for the office, or make-up for the office. South High School selected Mrs. Ethel McCann, a Mary Kay Cosmetic representative, to tell them the latest style in makeup. With the aid of FSA member Sabin Thompson as model, Mrs. McCann demonstrated many techniques to help achieve today's natural look and warned of pitfalls to avoid when applying makeup.

North and South members join together once a year to hold the Annual FSA Olympics, with winners and runners-up being chosen in secretarial fields including shorthand, typing and spelling, and non-secretarial categories such as talent and baking. A highlight of their year is the annual field trip.

with each school going on separate trips, including lunch at a restaurant in St. Louis. Next year, FSA students from North will be touring the Word Processing Department at the First National Bank in St. Louis, followed by lunch at the Stadium Club. South's plans have not yet been finalized.

Madison High School's FSA chapter has retained its original faculty advisors since its inception, Mrs. Beverly Imming and Lee Ashby. At last week's initiation-installation ceremonies, Madison High's day life of Madison High, and of the high calibre of the members, many of whom were also active in sports, drew members of the National Honor Society. He stressed to the parents and others in attendance that FSA membership was not something to be taken lightly, as it had to be earned.

For seniors in the Madison High School chapter, their big event occurs in April, immediately preceding Secretaries Week, when they take a bus to St. Louis and spend the day in the office with secretaries at First National Bank in St. Louis, Mercantile, and St. Louis Union Trust Co. The group is accompanied by FSA Chairman Vunovic, who "lectures" to the group on the way to St. Louis, telling them what to do and what not to do in order to learn and benefit the most from the new experience.

All FSA activities conclude in May when Madison holds an individual awards banquet, and members of GCHS and South join in a banquet, for the announcement of the Miss FSA and Miss Junior FSA.

Three local FSA chapters have a successful past history, and members of the Tri-Cities Chapter are enthusiastic about their continuing support of these chapters for many years to come. All local secretaries who would like to share in working with future secretaries are encouraged to attend the monthly meetings of the Tri-Cities Chapter, held the first Thursday of each month, in order to share in the continued growth of one of the community's organizations.

Cindy Dutko becomes Mrs. John Horobek

The wedding of Miss Cindy Dutko, daughter of Mr. and Mrs. Frank Dutko, 1808 Fifth St., Madison, and John Horobek, of Texas, was solemnized on Sept. 5 at the Nativity of the Virgin Mary Eastern Orthodox Church in Madison.

Parents of the groom are Mr. and Mrs. Peter Horobek, Route One, Chesterfield, Mo. The Rev. Thomas H. Scarottee officiated at the double ring ceremony at 6:30 in the evening. Bouquets of carnations, roses, and greenery adorned the altar and the pews were marked with white satin bows.

Nuptial selections were provided by the church choir. The bride, given in marriage by her father, wore a full length ivory silk crepe gown designed with a jewel neckline, long sleeves and pleated skirt.

Her headpiece was created of ivory silk forget-me-nots, ivory satin loops and satin streamers. She held long stem white roses with greenery.

Attending the bride as honor attendant was Mrs. Kelly Pinnell and bridesmaids, Mrs. Robin Newman and Miss Becky Dutko, all sisters of the bride, and Miss Carla Dutko, the bride's cousin. Miss Cathy Mueller of Huntington, W.Va. and Miss Pam Meyers.

The were gowned alike in Navy blue silk crepe wrap around style dresses accented with ivory satin collars and ivory satin belts.

Each attendant carried a long stem white rose festooned with ivory satin ribbon.

Tammy Dutko, a cousin of the bride, wore a long white net frock made with a full skirt and puff sleeves trimmed with Navy blue bows. She distributed the rice packets.

Social meeting of Eta Chapter

Eta Chapter of Phi Tau Omega Sorority, held a social dinner meeting last week at Ponticello's Restaurant in St. Louis.

Hostesses were Betty Krug, Georgiana Van Buskirk, and Shirley Morgan.

Miss Hilda Schroeder announced she has received notification that the pecans for a fund raising project will arrive on Nov. 5 and members may pick up the product at her office.

Those winning prizes in the card games were Lorraine Butler, Gladys Wagoner, Eunice Haischer and Kathryn Weddel.

President Mary Lou Richeson said there will be no business meeting in November.

Others attending were Ann Tatum, Evelyn Todd, Mary Evalyne Yenchio, Dorothy Costello, Dolores Sheridan and Martha Ruth Thomas.

Card club fetes Orville Hommert

The Butterfly Card Club honored Orville Hommert on his birthday and his retirement on Friday from the Granite City Post Office at a meeting Thursday night in the Hommert residence.

His wife, Mrs. Katie Hommert was hostess and served a Polish food buffet. Members also accorded honors to Mrs. Hommert and Mrs. Irene Willis on their birthdays. The group sang several songs to the honorees followed by an evening of card games.

Those named as winners were Mesdames Harriett Hoff, Mary Lou Claussen, Juanita Rosenberg and Edith Ryan. Also present were Mrs. Lorraine McIlroy, Mrs. Thelma Schmidt, Mrs. Nell Talley and Mrs. Hazel Rollins. Mrs. Willis invited the group to her home for the next session.

Friendly Agers host pot luck

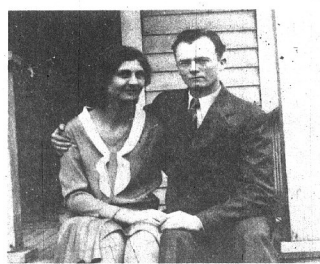

John Cavins offered the opening prayer at a pot luck dinner and business meeting of the Friendly Agers Club held at the Second Baptist Church.

After dinner the group sang a song and a special prayer for those who are ill was given by Naomi Rongey. Mina Duggins presided at the business segment as plans were made to visit Our Lady of the Snows.

Readings entitled, "Happiness" and "Curfew Shall Not Ring Tonight" by Evelyn McDowell, was given by Mrs. Rongey.

Games were directed by Evelyn Smith. Devotions and the closing prayer were presented by Jack Jenkins and a guest. Ginger Booker sang a song entitled, "Rainbow."

Forty-one members and seven guests attended and after the session dinners were taken to the shut-ins.

50th anniversary of Mr. and Mrs. Barnett

Mr. and Mrs. David E. Barnett of Granite City were guests of honor at a reception given in observance of their golden wedding anniversary at the home of Mr. and Mrs. Charles McGinness of Troy, Ill.

The couple were married in October 1930 in East Alton and resided there until moving to Granite City in 1931.

Mr. Barnett was born in Mayfield, Ky., and his wife is a native of Kane, Ill. He retired from Nesco Steel Barrel in 1971 and Mrs. Barnett retired from the Granite City Army Installation in 1970.

They are the parents of Kay Williams, club speaker.

Kay Williams of the Alton Mental Health Center, was the featured speaker at the monthly session of the Tri-Cities Area Association for the Retarded Citizens.

The meeting was held last week at St. John United Church of Christ with President Kay Hahne, presiding.

The guest speaker explained guardianship, legal advocacy and the human rights authority. Mrs. Ivan Relleke announced this year marks the 25th anniversary of the association in the area.

Refreshments were served during the social hour.

Swim lessons at Y offered to scouts

Swimming lessons are being offered to the Brownie and Junior Girl Scouts of the Quad City area at the YMCA with sessions set up for five weeks.

The cost per girl is \$8 and the scout does not have to be a member of the Y to participate. There will be two 45 minute sessions each Friday from 4 to 4:45 and 4:45 to 5:30 p.m.

Instructors will be familiar with the badge requirements so the juniors can work toward badges and all girls will receive a Red Cross certificate upon completing the requirements satisfactorily.

Registration must be made no later than Nov. 10 with Mary E. Brown, 4590 D'Lynn Drive for the next sessions scheduled for Nov. 14, 21, Dec. 5, 12 and 19.

Checks are to be made payable to Girl Scouts of District 4, Neighborhood 5. The next program is planned for March 20, 27, April 3, 10 and 24 and May 1, 8, 15, 22 and 29, it was announced.

Represent auxiliary at District 22 meet

State officers from the Illinois American Legion Auxiliary attended a meeting of the 22nd District held last week at the Waterloo (Ill.) Post 747 Home.

The departmental officers, including Marge Dorn, state president, Virginia Kates, first vice-president, Leona Best, second vice-president, and Doris Schultz, membership chairman.

Representing Tri-City American Legion Auxiliary Unit 113 at the district event were Doris Hilschcock, unit president, Katie Barks, president of the Madison-Bond County Unit, Doris Edwards, Loretta Goeller, Bonnie Jacob, Barbara Weathers and Donna Tanner.

A flip-chart presentation, based on a circus theme, "Come Share a Dream," was given by the state officers to describe the programs planned for the coming year.

Each unit was urged to

select a part of the "circus" motif to use as a project theme, with members concentrating their efforts on one larger project for the year, rather than fragmenting their efforts.

Members also were urged to write congressmen on legislative matters, conserve energy, continue to wear yellow ribbons to honor the hostages and to "recycle, restore and renew."

Ruth Picha, 22nd District, encouraged those present to support the district's new project for 1980-81—aid to the New Hope Living Center, a home for retarded children located in Waterloo.

Auxiliary members made plans to attend a Fifth Division meeting yesterday in Carmi, a jamboree and past president's event in Marion, Nov. 15 and Nov. 16, and a Madison-Bond County meeting in Marine, Nov. 19.

GC teachers at conference

Mrs. Helen Cook and Helen Volf from Granite City High School South attended the Illinois Association of Teachers of English fall conference at the Sheraton-Oak Brook Hotel in Oak Brook.

The theme of the conference was "English: A Censur of Excellence." English teachers from throughout Illinois gathered at the conference where book exhibits, workshops and over fifty small group sessions were available during the weekend.

Featured speaker at the Friday evening banquet was Harry Mark Petrakis, award-winning novelist and short story writer, who received the Illinois Author of the Year award at the banquet. Other speakers during the weekend were Dr. John Stewig, president-elect of the National Council of Teachers of English and Dr. Clinton Burke, Professor of Education at Illinois State University.

While at the conference, Mrs. Cook and Miss Volf acted as recorders at small group sessions conducted on Saturday.

On Monday evening, Mrs. Helen Cook, Mrs. Sandra Hughes, Miss Helen Kuestner and Mrs. Diane Nelson, members of the South English staff, attended a meeting of the Marquette district of the IATE. This district includes teachers from Madison, Greene, Bond, Jersey and Calhoun counties.

Held at the Round Table Restaurant in Collinsville, this meeting also included teachers from the Kaskaskia district counties south and west of Madison. After sharing new ideas and issues regarding the teaching of English, participants discussed the idea of hosting a meeting in the area during the next few years.

She is 13 years of age, 5 feet, 5 inches tall, weighs 120 pounds, has brown hair, is of slender build, has a small scar near her right eye and was last seen wearing brown shoes, jeans and a white sweat-shirt.

Organizing YMCA Indian Guides
The Tri-City Area YMCA has announced that tribes are forming now for the Y's Indian Guide and Princess programs. These parent and child programs, based on Indian lore, are open to all area fathers with children in kindergarten through third grade.

The program functions in small groups (tribes), which are composed of five to seven father and child pairs. Tribes are organized by age, grade, and by school or neighborhood and usually meet twice a month in the homes of other tribal members for various recreational activities.

The Y also provides special recreational events throughout the year, which provide the opportunity for all tribes to meet together.

The annual membership fee father and child pair is \$15 and \$5 for each additional child in the family. Additional information is available from Lucy Tuetz at the YMCA, 876-7200.

Mrs. Pamela Horne receives degree

Pamela Swan Horne, daughter of Lt. Col. Forrest Swan, (ret.) and Mary Louise Swan, 3407 Franklin Ave., received a Doctor of Philosophy degree from Texas A&M University.

She graduated from Granite City Senior High School in 1967 and in 1971, she married Doyle Jackson Horne. In 1971 she received a Bachelor of Arts degree with high honors in English from the University of Illinois, Champaign, and in 1973, she received a Master of Arts degree in rhetoric from the University of California, Berkeley.

Mrs. Horne worked as an administrative assistant for the Director of Continuing Education at Alaska Methodist University and as a lecturer of speech at the University of Alaska, Anchorage. In Texas, she served as a consultant to the Polar Research Board of the National Academy of Sciences.

She also worked as an assessor for the Adult Performance level Competency Based High School Diploma Program in Houston, Texas. At Texas A&M University, she worked as an academic counselor and instructor of English. Mrs. Horne then became director of the New Dimensions-Displaced Homemakers Program of the Texas Engineering Experiment Station. In 1979, she became the Title XII Strengthening Grant Administrator for the International Program Office at Texas A&M University.

Music featured at Niedringhaus

The annual Niedringhaus School music class demonstration during open house festivities once again drew a capacity crowd.

Under the guidance of Miss Patricia Dineff, general music teacher at the school, the children demonstrated music reading skills used in music classes.

An evening such as this gives the parents the opportunity to see what the child is learning. Some parents do not realize that the days of learning to sing songs by merely copying the piano are over.

"Families new to our school might find our approach enlightening, whereas families who have been with Niedringhaus for several years are perhaps familiar with our work," she commented.

Fourth grade pupils of Mrs. Cathy Drake participating were Catherine Aleman, Carme Braundmeier, Julie Byrd, Wendy Crane, Eric Cummins, Christopher Curtis, Ellen Flowers, Michael Hansen, Julie Heinrich, Brian Jones, David McKay, Michael Mansfield, Cheryl Morton, Thomas Moslander, Christina Pingle, Amee Poullo, Brett Rideout, Gina Roddy, Matthew Rogers, Keith Tester, Michelle Tillman, Eric Vincent, Christopher Wiehardt and Trisha Wright.

PCB study continuing

Mystery still shrouds some aspects of the polychlorinated biphenyls (PCB) fire in Granite City July 14, but most answers are expected by the end of November. Paula Case has told the City Council. She is director of the city air pollution control department.

The degree of hazard, if any, remains uncertain because a U. S. Environmental Agency report has not yet been completed. Mrs. Case commented after Fifth Ward Alderman Lloyd Bailey said residents are fearful of possible consequences of the fire.

PCB is toxic to fish and wildlife and can cause liver damage and other problems in humans, some authorities allege.

Bailey quoted Sheldon Simon of the U. S. EPA's Toxic Substances Office as alleging lack of cooperation by American Steel Foundries, scene of the fire. The company denies being uncooperative.

Some firemen reported nausea, headaches and dizziness after the chemical fire and have been examined by a doctor; they wore self-contained breathing equipment at the fire. Bailey asserts that at least three ASF employees developed rashes.

Mrs. Case said in September that air tests showed no increases in the levels of phenyl, indicating that the PCB may have been incinerated in the fire.

She also said testing of effluent at the sewage treatment plant showed no phenyls in the water or sewage, but Supt. Terrence McMillan of the

treatment plant told the City Council Sept. 16 that his tests showed the phenyl level in the sewage after the fire was the highest in the city's history and exceeded the state standard, reaching three times the allowed amount.

At 6:32 p.m. Monday, July 14, electrical equipment in the capacitor room exploded—apparently having become overheated due to hot weather—and blew at least one steel door from its frame on the third floor of a foundry building, the Press-Record reported at the time.

Fire then billowed out of the doors to the room, where the main distribution point for electricity to the plant is located. Two firefighters suffered heat exhaustion and were hospitalized overnight.

An incident control sheet prepared by the Illinois EPA's Emergency Response Unit said the fire reached a PCB storage area and consumed 54 two-gallon PCB capacitors weighing a total of 824 pounds. The material was contained in drums of 30 to 55 gallons size.

At one time, PCB is said to have been used commonly in the U. S. to dissipate heat in electrical devices, such as transformers.

ASF had planned to replace such capacitors with new capacitors not using the chemical, but the replacement had not been completed when the fire occurred, the company told fire department investigators.

On Sept. 18, Jeff Benbenek, Illinois EPA Region III district engineer, and

Walter H. Franke of the state EPA met with ASF staff members at the plant and asked questions which had been reviewed in advance by a lawyer for the company, Fred Kostka, it was related Tuesday night by Alderman Bailey.

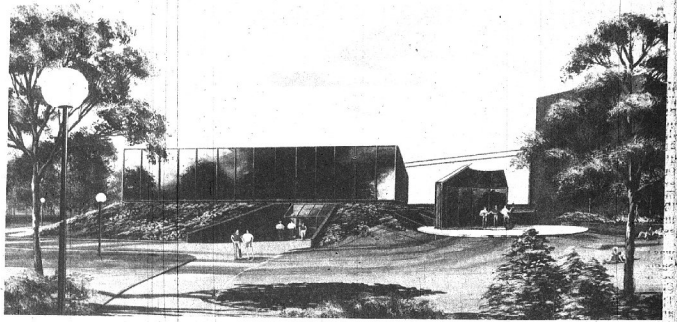

American Steel said the fire lasted less than a half-hour. The 6 p.m. temperature at an East St. Louis air monitoring station that day was 88 degrees, causing plant officials to conclude that the heat led to the fire.

Both PCB and mineral oils burned in the capacitor room, a spokesman told the Illinois EPA, Bailey said. A wind monitor operated by the City of Granite City was not in operation that day, due to the operator being on vacation, but the wind speed was 4.7 miles per hour at a direction of 130 degrees in Alton, 6.1 mph at 170 degrees in Wood River, and 5.5 mph, at 149 degrees in East St. Louis.

The capacitor room was not inspected Sept. 18 because it was not in use and had been locked by an order from the U. S. EPA.

Alderman Bailey read portions of "EPA reports at last week's council meeting and sought to encourage isolation of any sand or other materials that he fears might become contaminated. "The wind blew a lot, and people are worried about it," he contended.

Mrs. Case assured him that "everything is enclosed" pending completion of the federal study of the fire, and that no affected materials are involved in processing or reprocessing.

PROJECT EXPANDED. The project budget for the proposed Performing Arts Facility at Southern Illinois University at Edwardsville has been increased by the SIU Board of Trustees by \$56,000 to a total of \$556,000. The increase will provide funds for utility extensions for the new facility and a covered passageway between the

facility and the Communications Building, shown at right in this drawing by the project architect. Trustees have approved plans and specifications and authorized the board's executive committee to proceed with project bidding and the award of contracts. University officials are hopeful that construction work can begin this fall.

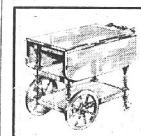

Named to college board

Patricia (Patti) Crockarell, 2523 E. 25th St., has been elected to the Alumni Board of Directors of Evangel College, Springfield, Mo.

Miss Crockarell will be serving a three-year term on the board. She is a 1974 graduate of the college, having obtained a bachelor of science degree with a double major of psychology and sociology.

Miss Crockarell is currently employed as an administrative assistant and social worker with Parkside Towers, an extended care facility in St. Louis. She is a licensed nursing home administrator with the state of Missouri, and is certified with the state of Illinois as an Emergency Medical Technician.

Maryville Road to be repaired

Temporary repair of the Maryville Road paving has been ordered by the City Council, which indicated it is on the verge of filing a lawsuit over deterioration of the relatively new concrete pavement.

Aldermen called on Street Superintendent Lionel Portell to put cold-patch material into the larger street craters, while they acknowledged that winter weather will cause some of the patches to pop free of the holes they have filled.

The decision was described as only a preliminary remedy.

City Engineer Monte Brewer said Madison County officials have cooperated in pinpointing defective slabs as the probable cause of the

problem with the concrete mix.

The Maryville Road paving was contracted for by the county government, with the city portion of the road later turned over to the municipality.

While much progress has been made in the effort to have the street improved, apparently a suit will be necessary to make it a reality, Brewer commented.

Sixth Ward Alderman Mac Warfield noted increasing public concern over the condition of the road in the area between Stratford Lane and St. Clair Avenue.

The city believes it will be necessary to remove sections of the concrete and pour a new roadway.

Responsibility for the cost of such

work has not been determined, but the city government says it is not at fault. The slag is said to have come from a state-approved site.

Traffic Engineer Ed Schulze said in July that "the foreign material is slag, but not blast furnace slag, which was approved for the mix. The other slag sneaked in periodically, during the mixing of the concrete."

"It certainly was not in all the batches, but three or four areas of about 100 yards long are affected, all in the north-bound lanes."

"Was not showing deterioration are unlikely to do so. But the sections with deterioration can be expected to get worse until they are replaced or repaired."

SIUE biology open house offers variety of displays

What happens to human chromosomes when they are subjected to different chemicals? The step-by-step story of how researchers look for the answers will be on display with other current research at the Biology Open House, Saturday, Nov. 8, at Southern Illinois University at Edwardsville.

After years of work, it is known that many compounds, including perhaps marijuana, cause genetic damage, said Shankar Nair, chairman of the biology department and director of the chromosome study.

"What we don't know is why. For some reason, the chromosomes are broken, even at low concentrations," he said. "We would like to find the mechanisms and the difference in susceptibility in different individuals."

As part of the display, Nair will show comparison photos using his own chromosomes, prepared from a blood sample.

Open House visitors will also be invited into labs

where biologists and their students are testing tolerance levels to cadmium, using zebra fish; where they examine the effects of treating stabilization ponds with insecticides to control some organisms; where they study the killifish, a tropical species from South America that survives in ponds that go dry every year.

One study, by Harold Broadbent, will tell why chipmunks and pikas live in certain parts of Asia and North America and nowhere else in the world. Another, by Richard Brugam, will tell the history of a lake from its sediment.

"It will be a good opportunity for high school students, their parents and teachers to see what we do at SIUE and how we do it," said Arthur Zahalsky, co-director of the event.

Zahalsky and co-director Donald Myer said the department offers specializations in botany, ecology, molecular biology, physiology and zoology. It

has an extensive pre-professional program with a high acceptance rate for students who go on to medical, dental, veterinary or optometry schools or into medical technology.

Advisers who are specialists in each concentration will lead independent group sessions to answer questions and explain the different requirements and opportunities each offers, Zahalsky said.

Visitors can also see a three-dimensional image of a cell as it divides in a special multi-media program using three slide projectors. Other films will detail possible careers in biology and the life sciences and introduce the SIUE faculty.

The Biology Open House will begin at noon with registration in the first floor lobby of the Science Building, Thomas Anderson, dean of the School of Science and Technology, will formally welcome guests at

1:30 p.m. in Room 3114 Nair will introduce the program.

A similar open house for SIUE students interested in biology or life science careers will be held Friday, Nov. 7. Additional information is available by calling 1-800-232-2277.

Q. How much good does it actually do for the town when we make purchases here rather than somewhere else?

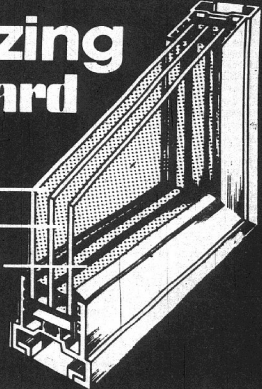

A. Let's look at a town through a "micro" view. Call the town Supersmall. The town Supersmall has only five people: Aaron, Bertha, Charles, Dorothy and Edith. Economically the town is stable until Aaron receives ten dollars as a Christmas gift. He buys groceries sold by Bertha, who buys a new dress made by Dorothy, who buys a new battery for a car from Charles, who buys a special home-cooked meal from Edith, who puts the money in her savings account, which will be used by the bank for a loan to Aaron, who will buy from Charles . . . etc. . . . At any point, if one of the people involved in the chain had spent the money out of town, all other economic benefits would have been lost. As things stand, the ten dollars could easily improve the economy of Supersmall by an amount twenty times the original value. Even though super-simplified, the "micro" look at a town's economy is very accurate. Think about it the next time you buy.

To the Editor:

May I reply to that "Granite City Man" who tells us death for others is okay.

All rights derive from the fact that each individual is especially created by God, who does not need our approval. Every time a couple tries, pregnancy does not follow.

Whether or not a new person is created is decided by God. To take away anyone's God-given life without even a trial is contrary to any and every concept of justice.

The U.S. Supreme Court in 1973 did not give our citizens any rights; the court has no such power. The citizen was "endowed by his creator with certain inalienable rights."

Certainly, some members of the Supreme court have been trying to hijack the rights and responsibilities of our elected legislators and are incorrectly trying to play God. Such attempts are improper and those justices should be fired and indicted as accessories before and after the fact of several million infants.

Our forensic magicians have arranged that a murderer escapes the punishment to fit his crime. Instead, innocent babies pay the penalty for his crime.

"Supreme Court" is hardly the term — you can think of more appropriate names, and so can everybody else.

Since, like Adolf Hitler, they devalued human life, murder has become the ready-made solution for even minor irritations, and the U.S. Justice Department a mere political football.

Regarding that difficult choice for women — those unhappy, misguided victims never foresee how hard it will be to live under their inescapable burden.

It is not accurate to say the maternal dropout who lays the guilt upon herself, as she learns too late. There is nothing choice about remorse.

The convictions which do not give their owner enough courage to sign his name are really something.

No one who opposes abortion is pressuring anybody "to ban any kind of birth control."

In fact, those who oppose abortion have always stood for birth control, self control, individual responsibility, marital fidelity, common decency, self respect and human dignity, principles which help us stay out of trouble.

Dumbbells and hypocrites misuse the expression "birth control" when they are really promoting promiscuity with all its attendant evils, venereal disease, prostitution, etc.

We are all God's children, not hopelessly wicked, so we can aspire to do better than just sin in style and expect to get away with it.

If abortions, the pill, IUD's, condoms, etc., were all made illegal, what would happen? Well, there are communities in the United States with no abortion, and none exist. So, what do they have?

Less venereal disease, less illegitimate children, less criminal abortions, less battered children, less shattered wives, less people who save to misuse it to further their own ends.

"Sometimes these babies are still living. You can see the heart beating. Afterwards, the babies are parceled up in plastic bags and disposed of in the incinerators." (News report, July 1979)

"An incinerator attendant in Scotland once saw their baby alive and whimpering. The baby had been aborted eight hours earlier." (Joseph Breit, Catholic News, July 9, 1979). The abortionist forgot to strangle it.

Of course, in 1980, abortion is "more ethical and more skillful." We rightly send aid abroad to help survivors of earthquakes, floods, etc. How about a little aid here and now for the babies who survive abortion but must fight a losing battle with abortionists?

Our leading presidential candidates do not think the 1973 decision reflects the will of the majority. But Mr. Anderson, who is for abortion, has shut himself out of the race.

Some decisions in both Bond and Madison counties may not have been completely popular, but they were decisions based on my understanding of the facts and the law as then presented — not what someone may have urged in an attempt to gain an unfair advantage.

In a circuit pool of lawyers recently conducted by the Illinois State Bar Association, I was recommended for retention, receiving the highest rating of any lawyer in the circuit.

I hope, therefore, that each voter will consider the entire record of my performance and will feel disposed to vote "yes" on the retention ballot Nov. 4 at Line 180.

Aurora College is a four-year senior college of liberal arts located 40 miles west of Chicago. About 1,250 students are enrolled in the co-educational college, founded in 1893.

Undergraduate degree programs are available in 37 major fields and 10 pre-professional areas.

Two graduate programs leading to the master's degree in either science degree in either management or criminal justice management are also offered. Enrollment has increased this year by 18 percent, making Aurora one of the fastest growing colleges in Illinois.

Defends everyone's right to live

To the Editor:

I feel compelled to respond to the letter of Oct. 16 defending abortion.

Those of us who oppose abortion do so because we cannot condone an operation that kills an unborn baby.

Perhaps it is not "society" that causes a woman who feels abortion to feel guilty, it may be her own conscience.

Those who favor abortion speak of it as though it were nothing more than an operation to remove an appendix; but an unborn baby is not a "thing." It is a human being.

Dr. Bernard Nathanson, formerly a prominent abortionist, has also come around completely and now says he's wrong.

The letter writer can always come out of the closet and try to grow up to be a man with guts, brains and even a heart.

Many things are authorized or forbidden by state law. Unfortunately, those who have no respect for moral law have no use for state, federal, or any other law save to misuse it to further their own ends.

"Sometimes these babies are still living. You can see the heart beating. Afterwards, the babies are parceled up in plastic bags and disposed of in the incinerators." (News report, July 1979)

"An incinerator attendant in Scotland once saw their baby alive and whimpering. The baby had been aborted eight hours earlier." (Joseph Breit, Catholic News, July 9, 1979). The abortionist forgot to strangle it.

China grain pact is an embargo

To the Editor:

The U.S.-China grain agreement will allow big government to get bigger by manipulating grain prices.

No matter how the Agriculture secretary may choose to term it to make more palatable, the truth is that such agreements tend to limit our foreign markets instead of expand them.

China has already purchased the minimum amount of grain called for in the agreement, and those purchases were made through the private, free enterprise system.

What the agreement really does is give the government the authority to limit the amount of grain which can be sold to a foreign buyer without calling it an embargo.

It is a long-standing policy of this organization, the Farm Bureau, that trade

agreements between governments undermine the principle of private free enterprise.

We have opposed all such agreements in the past and will continue to do so regarding future government-to-government negotiations, no matter which political party is in power.

The U.S. may be considering similar agreements with other countries that buy products which are produced by American farmers. Such a move would not be in the best interest of farmers or consumers.

The grain agreement, signed Wednesday, Oct. 22, permits China to buy six to nine million metric tons of U.S. grain in each of the next four years. After nine million tons are purchased, the U.S. government would have the authority to limit trade.

ILLINOIS FARM BUREAU BOARD

\$120 million expansion plan

The board of directors of Clark Oil and Refining Corporation has given preliminary approval for a \$120 million expansion program for the company's Wood River refinery in Hartford.

The project, expected to be completed by 1984, will enable the refinery to process heavier, higher sulfur content grades of crude oil and to make all of the refinery's gasoline yield as unleaded gasoline.

Clark expects to spend \$1 million in 1981 for engineering and environmental studies necessary to apply for an Environmental Protection Agency construction permit.

Robert G. Reed III, chairman and chief executive officer, said the company plans to double the refinery's coker unit capacity to upgrade less profitable residual fuels obtained from the refining process to more valuable products, such as gasoline, petrochemical feedstocks and home heating oil.

Clark's other refinery, in Blue Island, near Chicago, currently has the capability to produce all of its gasoline yield as unleaded gasoline. "This capability will grow in importance as the demand for unleaded gasoline increases," Reed commented.

Late-in-day voting is suggested

To the Editor:

The Granite City Business and Professional Women's Club is urging all members and women of the community to vote after 4 p.m. on election day.

The local club supports the following motion passed by the 1980 National Business and Professional Women's convention:

"In celebration of the 60th anniversary of the date that American women first had a voice in national election in this country, and to demonstrate in a visible manner that there is power and potential in the ballot of American women, the National Federation of Business and Professional Women's Clubs goes on

ADVERTISEMENT FOR BIDS
City of East St. Louis, Illinois

Owner
1) Time and Place of Opening Bids. Separate sealed BIDS for Collinsville Avenue Improvements, City of East St. Louis, Illinois, will be received by the City of East St. Louis, Illinois, until November 10, 1980 at 9:00 a.m. and thereafter at said office publicly opened and read aloud.</

FROM DOLLY TO DOC. Students of the Granite City School of Beauty Culture took on new personalities Thursday for their annual Halloween tour of the downtown Granite City area. These students are juniors and are working and training

through the off-campus educational program of the Granite City Schools. Instructors are Loretta Brown, Sheila Morgan and Shelley Boelling. (Press-Record Photo)

City studying industrial wastes

Granite City is currently conducting a study that will result in the development of an industrial sewage pretreatment program. The study is being made to comply with federal and Illinois EPA regulations under the Clean Water Act of 1977.

Its purpose is to identify industrial discharges to the municipal sewage system that may seriously affect treatment plant efficiency, or cause damage to the sewers. The benefits of such a program include protecting the environment from

toxic pollutants, reducing operating problems at the treatment facility and providing a more equitable allocation of costs. "Sverdrup & Parcel and Associates, Inc., of St. Louis was hired by the city to help us prepare the pretreatment study," according to Terrence McMillan, superintendent of the city's treatment plant. "We have finished the initial industrial waste survey and are currently sampling at the Granite City treatment plant to determine the types of pollutants we are receiving and our capability of removing these pollutants."

"Additional tasks to be undertaken in the next few months include a review of our ordinances regarding industrial dischargers, drafting a monitoring and enforcement program, and development of a user charge system to finance the pretreatment program."

"As we progress, we will hold several public meetings. The purpose of these meetings will be to exchange information and to receive comments and suggestions," he noted.

Moose Lodge enrolls seven

Seven new members were enrolled into the Granite City Moose Lodge 272 in ceremonies conducted at the lodge by the Moose ritual team.

Those taking the oath of membership included Kenneth Ross, Tommy L. Spece, Woody Moad, Steve Ortiz, Ray Allen, Ed Smith and Robert O'Mara; the latter was also elected as class representative.

Members of the ritual team included Jim Tadlock, a past Moose governor, Harold Harris, prelate, Gene Hancock, junior governor, Pete Schmid, sergeant-at-arms, and John Parker, orator.

Guest speakers for the evening were Walter Dintelman, membership chairman for the Southern Illinois Moose Association,

and secretary of Moose Lodge 815, Earl Arnold, ritual chairman of District 10. Virgil Singler, secretary of the local lodge, presented sponsors of the new members with appreciation gifts. Dinner was prepared and served to approximately 150 people by Pat, Marian and Wes Lipscomb, followed by dancing to the music of The Dark Horse group.

A film on the programs at Mooseheart and Moosehaven was shown to the new candidates, sponsors and members during the event.

CB STOLEN
Mike Jones, 224 Lee Ave., reported at 1:20 p.m. Friday, the theft of six gallons of gasoline and a 23-channel CB radio, worth \$185, from a vehicle parked in the driveway at his home.

Amvets to sell white clovers to aid projects

White clovers, chosen by AMVETS as a symbol of World War II and Korea because the white clover grows everywhere in the world — just as Americans fought for man's freedom all over the world — will be sold in Granite City by members of AMVETS Post 51 and auxiliary on Nov. 13 through 15 this year, it was announced today by Post Commander Harold K. Siebert.

White clovers are sold by AMVETS throughout the United States to raise funds for various types of community service projects, including entertainment and assistance to veterans still confined in hospitals.

Following a final organizational meeting of a special white clover committee, Commander Siebert asked that the citizens of Granite City contribute generously in buying white clovers to enable the post to assist in community service child welfare, Veterans Hospital and Americanism projects.

Those wishing to make direct donations or to participate with AMVETS in selling white clovers may contact Mrs. Betty Wilkins, 2904 Saratoga St., or call 877-8207, Commander Siebert said.

Seek applications for weatherization grants

By GARY W. KRONK
Harold Davis, supervisor of Nameoki Township, is encouraging eligible residents to file applications for the Madison County weatherization programs. The program was created by the Madison County Economic Opportunity Commission two years ago and is designed to save energy in households. Davis said it involves weather stripping doors and windows as well as installing insulation.

At last week's Board of Trustees meeting, Davis said that Nameoki Township was trying to get \$600,000 to weatherize 400 homes for the coming year.

Davis said the township had received no applications to date, despite the recent cold weather. He stressed the importance of receiving applications soon, if the township hopes to obtain the money.

Not all families are eligible for the weatherization program. The Madison County EOC has stated the following qualifications concerning family income:

—For a family of one will not qualify if more than \$4,250 per year is made;

—For a family of two the ceiling is \$5,625;

—For a family of three it is \$7,000;

—For a family of four the ceiling is \$8,375.

These rates are for non-farm families. Farm families will have slightly different rates and families greater than four members may also qualify.

For further information, interested homeowners may go to the Nameoki Township offices for guidelines and an application.

UNDERCOATING—RALPH'S TEXACO
22nd & MADISON AVE.

WE URGE YOU TO VOTE 'NO' ON THE LEGISLATURE CUTBACK AMENDMENT WHICH WOULD TREMENDOUSLY INCREASE CHICAGO'S INFLUENCE IN THE LEGISLATURE AT DOWNSTATE EXPENSE!

HERE'S HOW!

Right now, out of 22 Chicago Legislative Districts, there are 45 Chicago Machine-controlled Legislators, and 21 Republican Legislators (who often vote with downstate Legislators). If the Cutback Amendment from 177 to 118 Legislators passes — the SAME 45 Chicago Machine-controlled Legislators WILL REMAIN! — (the 21 Republicans will lose) ... and 45 controlled votes is DANGEROUSLY CLOSE to the 60 majority votes needed (out of 118) to pass any law. (Now, 89 votes out of 177 are needed.)

CHICAGO SCHOOLS ARE IN FINANCIAL CHAOS, DUE TO PATRONAGE PRACTICES AND MIS-MANAGEMENT. They are looking to the Legislature and the rest of Illinois to BAIL THEM OUT. (They have been to Springfield this past year, for a bail-out WHICH FAILED!) Next year, Chicago schools expect a \$50 million deficit. If the cutback passes, the 45 Chicago-controlled votes will be close to the 60 votes needed to pass any bill. Chicago's influence will be dramatically increased. DOWNSTATE TAXPAYERS! ... will be called upon to pay for Chicago's problems FOR YEARS TO COME!

Mr. Geo. Dunne, Chicago's Cook County Chairman, is "FOR" The Cutback!

WE, IN DOWNSTATE ILLINOIS, SHOULD ...

VOTE 'NO'

ON THE LEGISLATIVE CUTBACK AMENDMENT.

you have a choice about CRIMINALS in this election: you can have them on the street—

"The State's Attorney's office is currently the weakest single link in Madison County's Criminal Justice System with consequent tendencies to rely too greatly on plea bargaining and dismissal rather than on trial."

—Southwest Illinois Law Enforcement Commission Report

Byron is "lazy" and has "allowed the State's Attorney's Office to drift into a state of inept and unmanageable confusion."

—Granite City Democrat, Dick Allen, Edwardsville Intelligencer

"Byron's performance has been spotty. Byron has been in office long enough to have grown into the job but he hasn't done so. His record is clouded with disturbing cases of political favoritism."

—St. Louis Globe-Democrat Editorial

"Byron is not the tough prosecutor he claims to be . . . If you take the time to examine statistics you'll see his claims do not hold water. He pleads everybody to probation because he doesn't want a trial. The hallmark of his office is confusion."

—Alton Democrat Chairman, Bill Haine, Edwardsville Journal

—or— you can have them IN JAIL

"The Globe-Democrat makes the following endorsements: Don Weber of Collinsville, a vigorous experienced prosecutor with a 92% felony conviction rate when he served as an assistant State's Attorney, pledges more aggressive and efficient prosecution than the Democrat incumbent. Weber has the capacity to be a first rate State's Attorney."

—St. Louis Globe-Democrat Editorial

"For state's attorney, Don Weber promises active courtroom participation which is not provided by the two-term incumbent. Weber had an outstanding record as an assistant under Byron. In hope of stemming the steady increase in crime, we endorse Weber."

Collinsville Herald, Editorial

"I endorse Don Weber for Madison County State's Attorney. His record as a trial lawyer makes him eminently qualified for the office. His opponent's lack of trial experience is a major weakness in the current law enforcement process. There is no substitute for courtroom experience. You can hire someone for an 'Administrator.'"

—Attorney General of Illinois, Tyrone Fahner, Illinois' Chief Law Enforcement Officer

"We endorse Don Weber, who demonstrated clearly from 1976 that he is a gifted prosecutor. If he is elected . . . the cause of good government would be advanced."

Granite City Press Record, Editorial

"The professional services you have rendered have been very satisfactory and effective and I am available to provide a recommendation to any employer you may interview in the future."

—Letter from Nicholas G. Byron, State's Attorney to Don Weber

"Byron is running as an Administrator. Weber is running as a Prosecutor. We Recommend Weber."

Alton Telegraph, Editorial

JUDGE MOSELE IS TOUGH ON CRIME

SHERIFF EMIL TOFFANT

VOTE YES TO RETAIN Judge Victor Mosele GREEN BALLOT

JUDGE VICTOR MOSELE

SHERIFF EMIL TOFFANT CALLS JUDGE MOSELE — "a tough, hardworking judge a tremendous asset to law enforcement."

GRANITE CITY POLICE CHIEF RON VEIZER calls Judge Mosele "an honest, hardworking and tough judge he definitely should be retained."

MADISON CHIEF DON BRIDICK calls Judge Mosele's retention a necessity "he's knowledgeable, hard-working and tough."

VENICE CHIEF FARRIS SMITH endorses Judge Mosele's retention; "he's capable, fair, but tough on criminals."

PONTOON BEACH CHIEF R. BENNETT calls Judge Mosele "one of the best. He must be retained."

WHO DO YOU WANT TO BELIEVE?

A handful of power hungry lawyers who oppose Judge Mosele or your Police Chiefs. The choice is obvious.

- Truck Puller**
WINSTON-SALEM, N.C.—Charlie Latham gave up super stock drag racing in the mid-1960s when he got married. But, a few years ago he developed a passion for another exciting hobby—pulling tractor trailers with a small truck.
 Since 1977 he has won the North Carolina title, a pair of national championships and two national titles in the heavy division, several other awards, and was named puller of the year by the National Truck Pullers Association in 1978.
 Sponsored by Work Horse Chewing Tobacco, Latham participates in pulls all over the Southeast and at national events in Indiana, Pennsylvania, and Ohio.
